To: Axis Home Healthcare **216-290-2122**

From: _____ **Contact #** _____

Notes: _____

FYI, Medicare and Medicare Advantage plans cover home PT, OT, ST, SN services at no out of pocket cost to the patient generally as long as they are home bound. CMS considers patients homebound if they require a “considerable and taxing effort to leave the home,” require an assistive device or assistance of another person to safely leave the home or if leaving the home is contraindicated due to a medical condition.

Homebound does not mean that patients may not ever leave the home. In fact CMS states that patients are eligible for home health as long as trips outside the home are infrequent and of short duration. Regular trips to hair dressers, religious services, medical appts are always allowed.
