PROPERTY MANAGER

ABOUT JK PROPERTY MANAGEMENT

We're not your average property management company. JK Property Management is a values-driven, locally owned firm with over 20 years in Great Falls. Our mission is simple: **We exist to deliver professional, results-driven property management that adds measurable value for both owners and residents.** We believe property management is a disciplined profession built on systems, accountability, and consistent communication. If you're looking for a workplace that values efficiency, precision, and accountability in what you do each day, you'll fit right in here.

CAREER OVERVIEW

As a **Property Manager**, you'll be the main connection point between our residents, owners, and vendors — ensuring every property is well cared for, profitable, and compliant. You'll coordinate operations that maintain property quality, profitability, and compliance. Ideal for disciplined professionals who thrive in organized systems and take ownership of outcomes.

WHO SHOULD APPLY

*We hire for mindset first. While we value candidates with industry experience or higher education, we recognize that some skills can be taught — and others simply can't. If you're ambitious, dependable, and eager to learn, you'll find plenty of opportunity here, even without prior property management experience. **Don't hesitate to apply if you lack formal experience or education — if you possess the qualities we've outlined, we're interested in you.** What we can't teach is enthusiasm, accountability, or pride in your work. The success you achieve here will always reflect the effort, integrity, and attitude you bring each day.*
