Coral-billed Ground-Cuckoo

**Tour Name:** Wilderness Birding Adventures- Feb-Mar 2026

**Date(s) of Tour:** 21<sup>st</sup> of February- 02<sup>nd</sup> March 2026

**Tour Guide / Leader:** Sang Mony and Mott Peou

**Number of Clients:** 7+1 Pax

## Introduction

We started from the world heritage site **Angkor Complex** with 3 main temples visited (**Angkor Wat, Bayon, and Taproh**), led by Mott Peou “SVC Tours temple & bird guide”, then continued with the largest waterbird breeding colony on the **Tonle Sap Great Lake** the site called **Prek Toal Ramsar Site (PT)**, to the **Ang Trapaeng Thmor Protected Landscape (ATT)**, **Changkran Roy (CR)**, **Prolay- Bengal Florican Grassland (FG)** and then **Tmatboey/Kriel Lodge (KL)**, unmissable to see the **Asian Vultures** species in the **Beong Toal- Vulture Feeding Station**, then continued to **Kratie**, and then **Phnom Penh City** via the **Cambodian Tailorbird** site before dropping clients off in hotel.

## Highlights

List the most exciting species seen and highlighted.

- **Giant & White-shouldered Ibises**
- **Bengal Florican**
- **Sarus Crane**
- **Red-headed, White-rumped, and Slender-billed Vultures**
- **Mekong Wagtail**
- **Cambodian Tailorbird**
- **Coral-billed Ground-Cuckoo**
- **White-rumped Falcon**
- **Forest Wagtail & Fujian Niltava**
- **Greater Adjutant & Milky Stork**

## Day 1: 21<sup>st</sup> Feb 2026

We went to visit **Angkor Wat, Bayon, and Ta Prohm** temples for a day trip, including some birding in the forest behind the Angkor Complex and Traprohm temples to look for the **Alexandrine & Red-breasted Parakeets**.

After sunrise, we had breakfast and then continued birding in the forest on the northern side of the temple complex and walked toward the east side- we spotted a few **Brown Boobook, Forest Wagtails, Asian Barred Owlet, Hainan Blue Flycatcher, Gray-headed Canary Flycatcher, Black Baza, and Black-capped Kingfisher** in the moat of the complex.

Aaron spotted a male **Fujian Niltava** on the inner wall of the southern gate of Angkor Wat.

We quickly visited the **Bayon Temple**, then we went for lunch and returned to the **Traprohm Temple**. We spotted many **Red-breasted Parakeets** and some **Alexandrine Parakeets**, and then we headed back to the hotel, the end of the temple and birding day.

## Day 2: 22<sup>nd</sup> Feb 2026

On this day we went to the **Prek Toal Ramsar Site- a Largest Freshwater Lake in South-east Asia**, and this is a **Waterbird Breeding Colony** on the edge of the **Tonle Sap Great Lake** is the **largest waterbird breeding colony in South-east Asia** to see the **Milky & Painted Storks, Spot-billed Pelican, Asian Openbill, Greater & Lesser Adjutants, Gray-headed Fish-eagle, Brahminy Kite**, a lot of **Little, Medium and Great Egrets, 3 species of Cormorants, and Oriental Darter** along the channel before we arrived at the concrete observation platform- #46.

Afterward, we climbed down, got on the boat back to the floating village for lunch, and headed back to **Siem Reap**.

Prek Toal Ramsar Site- Waterbird Breeding Colony

### **Day 3:** 23<sup>rd</sup> Feb 2026

This day we went to the **Ang Trapaeng Thmor Protected Landscape- ATT**, the **Sarus Crane Core Reserves**, about 1 hour and a half drive from Siem Reap.

After arrived the **WCS Ranger Station** in the village we had some breakfast and then started our exploration to look for the **Sarus Crane** somewhere in the northern areas of the man-made reservoir there were around 48 birds spotted in the foraging field and then we continued to the other spots to look for the **Greater Spotted & Imperial Eagles, Black Kite**, and some of the other bird species. Then we turn around to one of the birding spots beyond the reservoir to look for the **Waterfowl** species before we go for lunch.

After lunch, we went to check **Thnal Toteong** for the **Knob-billed Duck**, then we headed back to **Siem Reap** via the **Large & Lyle's Fruit-bats Colony** in the center of town, and then went to the hotel.

Ang Trapaeng Thmor Protected Landscape (ATT), Sarus Crane Reserve

**Day 4:** 24<sup>th</sup> Feb 2026

Only 6 of us went to the **Changkran Roy Community** for the **Coral-billed Ground-cuckoo** and **Bar-bellied Pitta**, plus some of the other bird species. We depart at 4:00 AM directly to the SVC TOURS & CBP's CBGC blind. Upon arrival, we ate breakfast, then went inside the blind and waited for the **CBGC**. A bird calls at about 7:12 AM, and a bird came in at 7:20 AM, then left. Later on, it returned at 7:42 AM and stayed for about 4 min then left again. Light is getting better; we waited for about an hour, then 2 birds showed up, but only one came in for about 10 seconds, then left again. So, we decided to leave for the **Bar-bellied Pitta's "BBP"** blind before we go for lunch.

After lunch, we returned to the **BBP's** blind, then we waited for about 2 hours and 20 min then we left. There is no **BBP**, but many **Asian Emerald Doves, White-rumped Shama, 5 White-crested Laughingthrushes, Siberian Blu Robin, Puff-throated Bulbul, Pin-striped Tit-babbler**, and many of the other forest birds. We headed back to **Siem Reap** at about 3:30 PM.

Coral-billed Ground-Cuckoo in the Changkran Roy (CR), CBGC blind

**Day 5:** 25<sup>th</sup> Feb 2026

We went birding at the **Pralay-Bengal Florican Conservation Areas** in **Stung** district of **Kampong Thom** province, just for the morning only, at least **5 male Bengal Floricans, 3 Manchurian Reed-warblers, 2 male Pied Harriers**, many **Eastern Marsh Harriers, 8 Sarus Cranes** on our way out, and many of the other open grassland bird species.

Late morning, we continue to the **Tmatboey-Ibis site** located in **Kulen Prohmtep Wildlife Sanctuary** of **Preah Vihear** province. We will be staying there for 3 nights and 4 days in the new property, was operating by the **SVC STAYS**, with a new name called **Kriel Lodge**, before we move on to the next destination.

We went to **Chomres Trach** areas to look for the **White-shouldered Ibis** in the roost, at least a bird came to roost with 3 followers of the **Asian Woolly-necked Storks**, and another 5 more of **WSI** came in just before sunset. Then we turn back to the lodge for refreshment, and for a night, we have had a good day today.

Birding in Chamres Trach for the WSI roosting

### Day 6: 26<sup>th</sup> Feb 2026

We went birding in the **Trapaeng Kokoh** and **Trapaeng Chambork** areas in the morning, looking for the **Giant Ibis**, **Spotted Wood-Owl**, and **White-rumped Falcon** somewhere further north of the village.

We missed the **GI** in those feeding **Trapaengs**, our local guide, **Mr. On**, went to look for the **Spotted Wood-Owl** perched up in the small tree nearby one of the **Trapaengs'** "seasonal pond", we had a good look at it in the day roosting.

In the afternoon, we went to look for the **GI** in **Trapaeng Kokitraduok**, as spotted by one of the local guides, but the **GI** disappeared after we arrived. We saw some of the other good birds in this spot, and a **Brown Fish-owl** perched up above the nesting hole.

Birding in Trapaeng Chambork, searching for the Giant Ibis

## Day 7: 27<sup>th</sup> Feb 2026

We went back to the **Trapaeng Kokitraduok** again to check for **GI** in the morning, but there was no sign of them. We got a really good look of **Yellow-crowned Woodpecker**, **Burmese Nuthatch**, **Great Slaty Woodpecker**, **Indian Cuckoo**, **Purple Sunbird**, a single **White-shouldered Ibis** flight over our head, and many of the other birds around the spot.

Afternoon we went to the **Phnom Raeng** area, we spotted a male **White-rumped Falcon** perched nicely, a **Rufous-bellied Woodpecker** was seen in the same spot, and we also found a nesting hole.

Further deep inside, we flashed **3 Savanna Nightjars** from the ground and perched on the fallen branches, we had a great look at them.

Birding in the Phnom Raeng area

## Day 8: 28<sup>th</sup> Feb 2026

Our last morning in the **Tmatboey area**, we went to **Trapaeng Beong** to look for some of the missing bird species. After about an hour of birding in this spot, I got a call from the local guide that a villager had heard **Giant Ibis** calls somewhere beyond the **Srah Teok** area. So, we rashly turn around to vehicles and drive to the spot. After about 150m walked through the harvested rice paddies, we scanned around and spotted **2 Giant Ibises** feeding in the distance together with a family of **4 White-shouldered Ibises** with 2 young birds begging for food.

Our last morning made our 3 nights and 4 days trip to the **Tmatboey** area succeeded of **GI** sighting.

Then we turned around to the **Kriel Lodge**, had our early lunch, and were ready to continue to our next destination- **Beong Toal, Vulture Feeding Station**. We also spent a few hours birding in **Beong Toal** after we arrived.

We spotted 2 GIs somewhere near the Srah Teok area.

Our campsite in the Beong Toal- Vulture Feeding Station

### **Day 9:** 01<sup>st</sup> Mar 2026

We get up early again and trek to the **Vulture Feeding Blind** at about 5:20 AM. After sitting in the blind for about 25 minutes, at 6:00 AM, most of the vultures flew straight down to the carcass and started feeding for a few hours, and the **2 Asian Golden Jackals** came to join the party and chased all 3 species of vultures away. At least **40 White-rumped Vultures**, **5 Red-headed Vultures**, and **21 Spender-billed Vultures** came to the carcass. We had such a great morning in the blind with a fun view of the feeding activities of those **3 species of vultures** and **2 Asian Golden Jackals**.

As we had a wonderful time in the blind for a few hours, we turned back to the campsite at about 8:45 AM with some birding on the way back, then had our early lunch, packed and ready for departure to **Kratie**.

It took us about **4 hours** to drive the **228km** distance with a toilet stop only, as we needed an afternoon of birding in the **Kratie Marshland**.

We had a wonderful 2 and a half hour birding in the marshland with some good looks at the **Pallas's Grasshopper Warblers, Black-browed Reed-warblers, Zitting & Golden-headed Cisticolas** pop up on top of the rice, some **Grey-headed Swamphens** in the shrub in the lake, heard **White-browed Crakes, Watercocks,** and some **Oriental Reed-warblers.**

Birding in the Vulture Feeding blind in Beong Toal

Birding in the Kratie Marshland after we arrived

### **Day 10:** 02<sup>nd</sup> Feb 2026

The last morning in **Kratie**, we went birding in **Kampi Pool** by taking 2 boats ride on the **Mekong River** to look for the **Mekong Wagtail, Irrawaddy Dolphin, Small Pratincole, Grey-throated Sand Martin, White-shouldered Starling,** and other bird species. We have a good morning birding on the boat in the river for a few hours before we head to **Phnom Penh** via the **Cambodian Tailorbird** site, before we cross the ferry to the city. End of the tour.

Birding on the Koh Ayey in the Mekong River

**Bird List & eBird Link** (20 checklists, 253 bird species seen & some vocalized)
