

Plate Table with Toaster Recess and Undershelf

Food Service / Bar Equipment

The Plate Table is used as a bread/bun workstation for toasting and prepping toasted bread products. The surface drop-off is designed as a platform for a commercial toaster with a butter wheel, such as a Star Bun Toaster. The recessed surface allows the toaster to be in line with the countertop.

LENGTH	DEPTH	HEIGHT	MATERIAL	FINISH	COLOR
64.5"	24"	42"	304 Stainless Steel	Brushed #4	Silver
