

**A VISION
FOR
DEVELOPMENT
EDUCATION
IN IRELAND**

CONTEXT

This Vision has been created by the Development Education sector in Ireland, to reflect our current aims and our aspirations for the future. It is the result of a sector-wide collaborative process led by IDEA, the Irish Development Education Association, to articulate our shared vision for Development Education in Ireland.

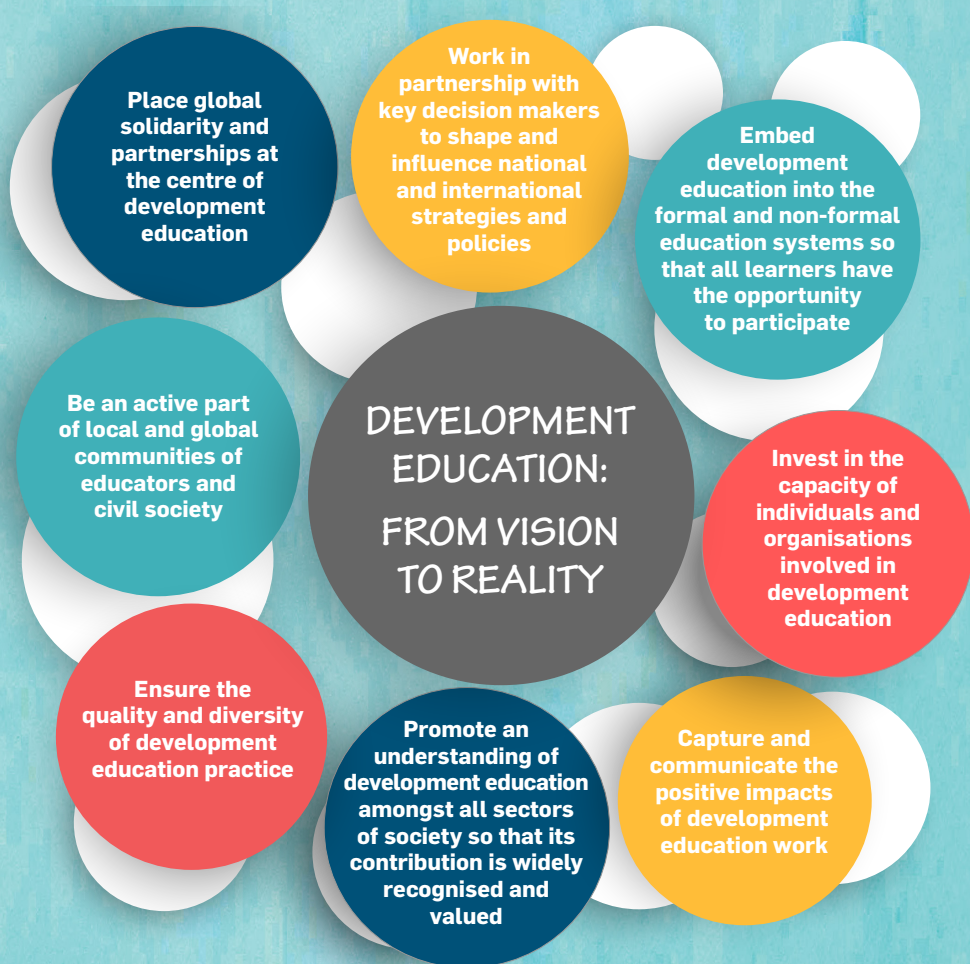

Development Education has been making significant contributions to Irish society for more than forty years. This vision builds on these strong foundations and looks to our future aspirations and contributions.

The purpose of this vision is to inform Development Education strategies and practices in Ireland. We hope it will be used and adapted to communicate the hugely important contribution Development Education makes in Ireland and globally. We call on all involved in Development Education in Ireland to share our vision and work towards making it a reality.
