It’s hard to believe we are already halfway through this year! Here at IAMHP, we find ourselves in the throes of another busy month as Medicaid Redeterminations are officially underway in Illinois, and we’ve just wrapped up the 2023 Legislative Session in Springfield. While IAMHP continues to be at the forefront of advocating for reforms that continually improve the Medicaid program, we also know how important it is to pause and highlight the great work that has already been done to further strengthen the state’s healthcare safety net and improve the lives of not just Medicaid members, but all residents here in Illinois. From campaigns to highlight the prevalence of the opioid/heroin overdose crisis, to ongoing work that addresses social barriers to health, to using AI to improve access to care, our industry partners are doing so much to continue our mission of improving health outcomes right here in Illinois and we couldn’t be more proud to be allies in this quest.

There will of course be more to come but until then, here’s a round up of IAMHP’s content from this past month to catch up on.

To stay up-to-date with the latest insights, visit iamhp.org and follow us on social media!

Did you catch it?
Your one-stop-shop for the content IAMHP shared over the past month!

**Ep. 115 - Opioid/Heroin Overdose Prevention and Redeterminations: A Candid Conversation with State Rep. LaShawn Ford**

Illinois State Representative LaShawn Ford joins Samantha to talk about the importance of Opioid and Heroin overdose prevention and the risk of losing coverage during Medicaid redeterminations.

**Ep. 116 - EVV as a Stepping Stone in Managed Care**

Kaitlin Shepherd, Sr. Director of Government Health Plans at HHAeXchange, an IAMHP Trusted Partner, and Andrew Segal, CEO of Ansega Health Solutions join Samantha to discuss the importance of effective data to drive better healthcare outcomes.

**Ep. 117 - Using Social Influencers of Health to Drive Improved Health Outcomes**

Jean Drummond, President at HCD International, joins Samantha to talk about how we as an industry can use social influencers of health to drive improved health outcomes.

**Ep. 118 - Using AI to Improve Access to Care and Critical Eye Health Outcomes in Diabetes Patients**

Jul Goldstein, VP of Government Affairs and Market Access at Digital Diagnostics, an IAMHP Trusted Partner, stops by the podcast to talk about the use of AI to improve access to care and critical eye health outcomes in diabetes patients.

**Ep. 119 - Providing Life-Changing Surgeries for Disadvantaged Children at No-Cost**

Utica Gray, National Director at Fresh Start Caring for Kids Foundation, joins the podcast to talk about the importance of providing life-changing surgeries for children at no-cost. For more information visit http://www.freshstartkids.org.

**Ep. 120 - Keeping Families Safe, Supported and Together in Illinois**

Joyce Moffitt, Director of the Greater Chicago Chapter of Safe Families for Children, joins Samantha to talk about the importance of providing life-changing surgeries for children at no-cost. For more information visit Safe-Families.org.

Qartek Presents on Redeterminations in Illinois

This webinar covers advancements in technology that help to meet the increased need for outreach and engagement during this critical time, while taking into account potential barriers like social influencers of health.
