## WORK EXPERIENCE

### Art Educator | Alfred University, University of West Florida, Mobile Museum of Art, Green Atelier

2015 – 2023

I teach advanced painting, drawing, artistic anatomy, and creativity courses both privately and for institutions.

- I design workshops and semester-long courses for universities, museums, and art centers.
- I navigate diverse personalities, cultures and ages successfully guiding them to their goals.
- I help students find consistent self-discipline, a liberated mindset, and meaningful self-expression
- I lead and motivate a diverse range of personalities.

### Studio Assistant/Art Handling | Y.Z. Kami, Heidi Hahn, Vera Iliatova, Craig Taylor, Vox Media

2021 – 2023

I assisted renowned and established artists in preparing for exhibitions such as the Armory Show. I've also assisted in the creation of props for stop motion animations for Vox Media.

- I built high quality canvases in large numbers and sourced a variety of art supplies.
- I transported dry and wet paintings across the city to galleries and studios.
- I improved the artist's painting practice by instructing them in traditional glazing methods and recommending new materials. I created technically demanding paper sculptures on a short deadline for documentaries.
