The Cliffs Australian Whites was established in 2016 with the purchase of foundation animals from the AWSBA Flock No 11. Today the Cliffs Stud runs over 500 purebred Stud Australian White ewes, descendants of the original foundation flock as one part of the farm operations. Our main focus is providing stud and commercial clients with good shedding unshorn sheep at realistic prices.

In 2021 we realised there was a need to improve shedding sheep. We felt we needed to have an open mind with the development of a better shedding sheep and embrace change. An AI program began in 2021 using our Australian White ewes and two SheepMaster sires. The results were extremely encouraging as you can see today with Composite SheepMaster Rams joined to our Australian White Ewes or our Australian White Rams joined to Composite SheepMaster ewes providing a unique blend of bloodlines.

Our new shedding sheep breed are separated from our Australian Whites by genomic parentage testing and we use electronic tagging system on all sheep for full traceability.

**Please note the sale proceeds of Lot 1- a Composite SheepMaster ram - will be donated to Beyond Blue by The Cliffs Shedding Sheep Stud.**

We would like to thank our sponsors, our local CRT store, The Rural Centre of Molong, Manildra and Orange for their generous donation which will be presented to the most successful purchaser in attendance at the sale today.

Our aim is to move Shedding Sheep forward to give our clients the best possible outcomes. We hope you like the new composite shedding sheep breed and also our purebred Australian White Rams.

We appreciate everyone here today for respecting our biosecurity and using the footbath provided. We thank you for attending our Spring sale.
