Warm Air Heating,

just got even better

Introducing the all new WarmCair Series. Warm Air Heating with integrated Hot Water from Johnson & Starley Ltd, uripes leading manufacturer of warm air heating solutions.

www.johnsonandstarley.co.uk

The all-new range of WarmCair DW heaters.
Designed to offer cutting-edge comfort and efficiency for your space. Among the exciting additions to this line-up is the WarmCair C25DW, a model that enhances performance and innovation. With its advanced features and sleek design, the C25DW is sure to meet the needs of any modern home or office, providing consistent warmth and a more energy-efficient solution for everyday heating.

Whats New

- Combustion Fan
- Heat exchanger
- Gas valve
- PCB board

All upgraded components, including the heat exchanger have been standarised across our entire product range.
This ensures a streamlined list of spares.

The Electrical display and PCB Controls have undergone updates to provide a more intuitive and user-friendly interface.

Experience the ultimate in versatility with the combined WarmCair Condensing Range.

5 YEAR GUARANTEE

Benefits:

- Hydrogen Blend Compatibility: Future-proof your system with seamless integration for hydrogen blend fuels.
- Up to 28% Fuel Savings: Cut your fuel bills by up to 28%, driving significant cost-efficiency.
- Enhanced Thermal Efficiency (up to 28%): Boost your energy savings with improved thermal performance for even greater value.
- Lower Electricity Costs: Benefit from additional savings thanks to advanced EC Technology, optimising energy use.
- Summer Air Circulation Option: Keep your space comfortable year-round with optional summer air circulation.
- Optional 'Cleanflow' Filtration: Enhance air quality with the Cleanflow electronic air filtration system.
- Reliable 5-Year Guarantee: Peace of mind with our comprehensive 5-year guarantee – Years 1-2 cover parts & labour, and Years 3-5 include parts only*.

Features:

- Versatile Flue Options: Flexible installation with multiple flue configurations to suit your needs.
- Innovative Cool Door Technology: Maintain efficiency and safety with our patented Cool Door technology.
- Effortless Installation: Designed for easy, hassle-free installation with minimal disruption.
- Fits on Existing Plenums: No need for extra space – our system fits perfectly on your existing plenum, retaining the same footprint.
- Convenient Flue Gas Access: Quick and easy access to the flue gas analysis test point for seamless maintenance.

The Cleanflow** system is simple yet highly effective electronic air filter.

When your heating system is operating at full capacity, the air in your home passes through the air filter up to six times per hour. This provides an ideal opportunity to purify the air by removing smaller particles, such as pollen, Mould, and cigarette smoke.

This can be added to your heater at the time of installation, ask your installer for more details.
