**FOR PRODUCTS  
YOU CAN BUILD ON**

## About Hutchison Quarries

Hutchison Quarries is a medium sized hard rock quarry employing up to 15 staff ranging from truck drivers, machine operators and administration staff. With a well established reputation on the darling downs built on respect, integrity, innovation, quality and reliability, Hutchison Quarries is a name you can depend on time and time again. The success of our business is built on proven performance, safe work practices, excellence in environmental and industrial relations, highly motivated employees.

### OUR MISSION

Hutchison Quarries aims to be the most reliable supplier of consistent high-quality quarry materials in the Darling Downs. Achieving our mission involves a commitment to:

- Safety of our people, contractors and equipment
- A customer-centric attitude – finding solutions for their requirements
- Recruiting people with a passion for safety and performance
- A culture conscious of protecting our environment
- Making no compromises on quality
- Supporting our local community

### OUR TEAM

Stephen Palmero  
Quarry Manager

Ryan Stevenson  
Quarry Supervisor

Donna Payne  
Weighbridge/Administration

Anna-Lia Bormolini  
Production Leading Hand

# Our Products

Road Base

Drainage Rock

Rail Ballast

Gabion Rock

General and Select Fill

Broken Rock

Manufactured Sand  
Crusher Dust

Armour Rock

Aggregates

Drainage Rock

Precoat  
Aggregates

Cement Treated  
Bases

It is the range, versatility, and quality of our production, along with timely delivery, that has given Hutchison Quarries the well respected name it holds today.

Our hard rock (hornfels) quarry offers all standard materials, and we are always willing to produce any material needed to meet the demands of our customers.

## Aggregates

|                               |
|-------------------------------|
| 20mm Aggregate                |
| 14mm Aggregate                |
| 10mm Aggregate                |
| 7mm Aggregate                 |
| 5mm Aggregate                 |
| Crusher Dust                  |
| 7mm Double Wash               |
| Fine Crusher Dust (1mm minus) |
| Thermal Sand                  |

## Precoat Aggregates

|                        |
|------------------------|
| 20mm Precoat Aggregate |
| 14mm Precoat Aggregate |
| 10mm Precoat Aggregate |
| 7mm Precoat Aggregate  |
| Otta Seal              |

## Concrete Aggregates

|                                       |
|---------------------------------------|
| 20mm Concrete Aggregate               |
| 14mm Concrete Aggregate               |
| 10mm Concrete Aggregate               |
| 7mm Concrete Aggregate                |
| Crusher Run (7mm-20mm) Concrete Blend |
| Manufactured Sand                     |

## Rock Products

|                                               |
|-----------------------------------------------|
| Shot Rock (blasted material in raw condition) |
| Armour Rock (600mm-1000mm)                    |
| Select Rock (300mm-600mm)                     |
| Rip-Rap (150mm-300mm)                         |
| Drainage (75mm-150mm) Mattress rock           |
| Ballast - A Class (25mm-55mm)                 |

## Road Bases

|                                             |
|---------------------------------------------|
| Type 2.1 (CBR 80)                           |
| Type 2.2 (CBR 60)                           |
| Type 2.3 (CBR 45)                           |
| Type 2.4 (CBR 30)                           |
| Type 2.5 (CBR 15)                           |
| Type 3.2 (Type 2.1)                         |
| Type 3.3 (Type 2.3)                         |
| Unsealed Road Gravel (re-sheeting material) |
| Scalps (25mm minus) Blue or Brown           |
| Scalps (75mm minus) Blue or Brown           |

## Fill Products

|                                                  |
|--------------------------------------------------|
| Class A1 Embankment Fill                         |
| Select Fill (screened)                           |
| Select Fill (unscreened)                         |
| Plant Spillage (mainly dust to 20mm & some rock) |

## Cement Treated Bases

|                                                 |
|-------------------------------------------------|
| LBB (Type 2.1 Lightly Bound Base)               |
| LBSB (type 2.1 Lightly Bound Subbase)           |
| LBSB (Type 2.3 Lightly Bound Subbase)           |
| LBIL (Type 2.3 Lightly Bound Improvement Layer) |
| Type 2.1 CTB @ 5.0% (75F/25C FAB) No testing    |
| Type 2.3 CTB @ 1.0% (75F/25C FAB) No testing    |

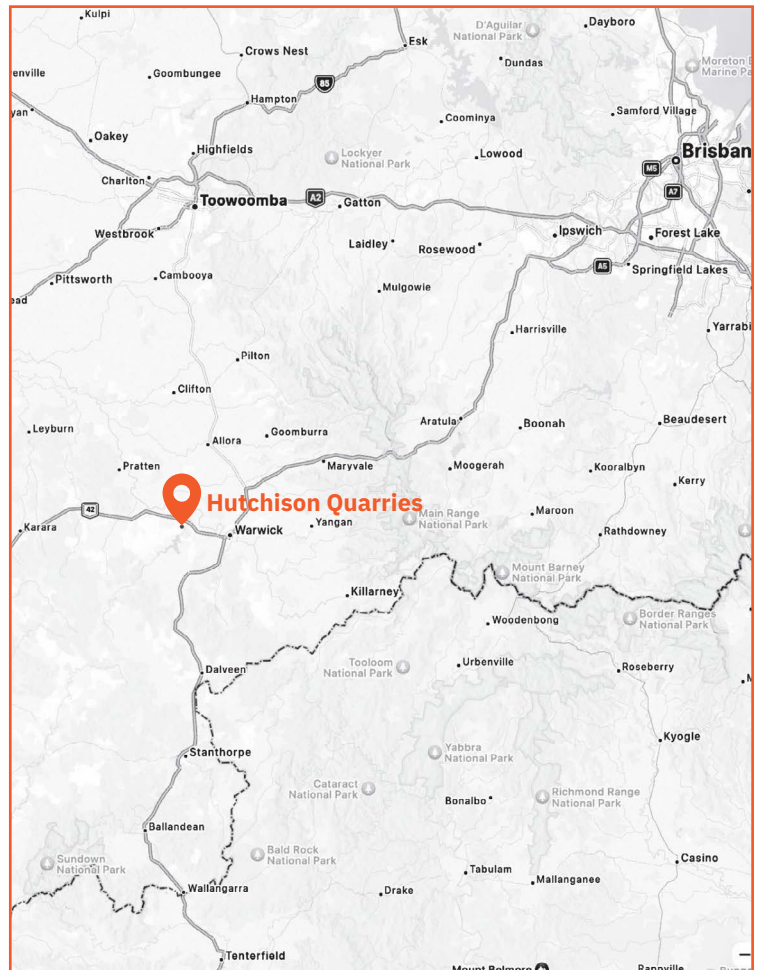

## CTB Information

|                                                 |
|-------------------------------------------------|
| Production hrs for CTB 7am-12pm                 |
| Testing to be booked prior to 2pm the day prior |
| Testing - HON & Moisture                        |
| Testing - 7 & 28 day UCS                        |

Our Pink Gum Lane site is located just 12kms from Warwick on the Cunningham Highway. The site has been operated by Hutchison Quarries since 2004 producing high quality quarry products servicing the road construction requirements in the Southern Downs region.

The site operates a fully autonomous crushing and screening plant capable of producing high tonnage rates of quality aggregates and roadbases, along with a pugmill used to achieve desired OMC in all types of unbound pavement materials produced at the site. A fit for purpose pre-coating plant is also onsite to ensure the highest quality is maintained across all sealing aggregates. The site also has the capability to produce consistent, high quality, on-spec CTB.
