Vegan

In 2018 the UK launched more vegan products than any nation, orders on menus grew by 388% between 2016-2019 meaning they are the fastest growing option on a menu.

At J&R Food Service we are always looking to keep up with growing trends, Veganism is growing rapidly throughout the food service industry and we look to accommodate this dietary requirement as part of your menu. You will find options for Vegans throughout our catalogue ranging from, cheeses, sauces, cakes, bakery goods and ice cream etc.

Did you know?

Veganism in the UK quadrupled between 2014-2019. In 2019 there were 600,000 vegans, or 1.16 of the population. There is no doubt that veganism will continue to grow as the population looks to change eating habits to what they perceive to be a healthier, cleaner diet.

We will continue to bring more vegan items into our portfolio as we meet more suppliers who are innovating products to suit the vegan revolution.

Please talk to one of your Area Sales Manager to discuss more options to cater for this ever growing trend.

A gluten-free diet is also popular among people who haven't been diagnosed with a gluten-related medical condition but choose to follow the diet for health reasons, the claimed benefits are Improved health, weight loss and increased energy, but more research is need to substantiate these claims.

Our gluten free range is growing weekly and we can now offer you options to cover every aspect of your menu from well known brands to South West producers.

Avoiding Cross Contamination:

- Store gluten-free and gluten-containing foods in labelled airtight containers.
- Keep cooking surfaces and food storage areas clean.
- Wash dishes and cooking equipment thoroughly.
- Toast bread in the oven or consider separate toasters.

Fruit and Veg

In 2018 we acquired a local Fruit and Vegetable Wholesaler "F. Milford & Sons", a family run one hundred year old business that was based in Exeter.

With Milford's very strong relationships with local and West Country growers and the extensive product knowledge gained over the years this now gives J&R a top quality range of seasonal produce which is sourced from the West Country wherever possible. This helps to cut down food miles ensuring West Country Produce is served on West Country plates. We are also able to source more exotic products ensuring that we meet the needs of a wide range of different customer types, ranging from farm shops, garden centres, restaurants, pubs and hotels to large public bodies like Universities & schools.

COMPLETE

Meats

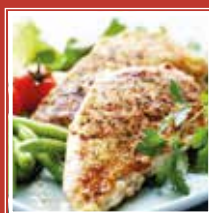

Established in 1988, Complete Meats Ltd is a family run business based in Axminster Devon. Working alongside J&R Food Service we have a strong reputation for bringing you excellent quality meat.

At Complete Meats we are totally committed to supporting your business with top quality meat so you can guarantee that every piece of meat you serve to your customer is 1st class. Our aim is to support local WestCountry Farms meaning we source as local as we can followed by a butchery service that is second to none.

With many of their suppliers being local, they have built up long established personal relationships with the farmers and both are passionate about upholding the very best husbandry standards.

Locally Sourced

Food miles play an important role within their business and use a local abattoir to keep those miles down, this ensures that the animal doesn't have long stressful journeys. They then receive the meat back to the cutting plant where it is hung for the required amount of time. Your beef will be hung for 21 days, meaning you'll have meat full of flavour and tenderness.
