

Emergency Management Association of Georgia

2026 Slate of Candidates – Sample Ballot

Shall the Bylaws Article XI, Section 2 be amended to provide the Site Committee, as appointed by the President, the authorization to recommend two locations to be considered for the annual meeting two (2) years in advance. The adoption of the site(s) requires a majority vote of the assembly. If the site location(s) are defeated, recommendations shall be accepted from the floor and voted upon.

This proposal is in response to a membership majority vote at the 2025 Annual Meeting in which a motion was successfully carried to authorize the President and Site Committee to present location proposals for the annual meeting two years in advance to allow for better calendar availability and give the membership advance planning. Although this motion and vote succeeded in 2025, it is not currently provided for by the association bylaws.

Bylaws Committee submission, July 31, 2026
