

Boyle Stadium

Facility Upgrades

Stamford, CT

Owner: City of Stamford, CT

Boyle Stadium, named to the State Register of Historic Places because of its unique architecture and Depression-era history, is built from stone cut by an army of Italian artisans during the Great Depression. It is able to seat almost 6,000 fans and has hosted state and regional title games.

Nature of Firm's Responsibilities:

Landmark Facilities Group, Inc. (LFG) provided MEP design services as part of a team to modernize the infrastructure for the stadium including a new electric service, improved ventilation, accessible restrooms, and a new training room.
