

PCK Warranty

PCK Kitchens offers a **seven (7)-year warranty** from the date the installation is completed on kitchens and joinery we design, manufacture, and install, subject to the terms of the contract.

What the warranty covers depends on the products, materials, hardware, and appliances used in the project. For example, PCK's warranty may cover the cabinetry and installation, while benchtops, hinges, drawer runners, or appliances are covered under separate manufacturer warranties.

These warranties are provided in addition to, and do not limit, any statutory warranties or other rights and remedies available under the *Home Building Act 1989 (NSW)*, the Australian Consumer Law and applicable manufacturer warranties.
