

Rising 3rd Grade Summer Packet

*Includes Reading and Math

Please have your child complete this packet over the summer. They should be able to complete the Math independently but please check it for neatness and accuracy. Return this to your child's teacher on the first day of school as it will count for their first grade in both Literature and Math. For full credit, this packet needs to be turned in on time, complete, accurate, and written in your child's neatest handwriting. Thank you for your help!

CHRISTIAN SCHOOL
A Classical and Christian Academy

Rising Third Grade Summer Reading

Welcome Rising 3rd Grader!

You are required to read two books, *Stuart Little*, by E. B. White, and *Sarah, Plain and Tall*, by Patricia MacLachlan. Both books can be found at the local library, at the bookstores or on Amazon. You should bring your assignments for both books on the FIRST DAY of school.

The summer reading assignments will count as your first grade in literature, so do your very best and neatest work!

After reading each book, complete the attached assignment.

Happy reading!

Third Grade Summer Reading Book #1

Name _____

Please complete this book report using your best handwriting. Answer all questions in complete sentences, using correct capitalization and punctuation. Your answers should also include details. Additional sheets may be used if needed.

Title: _____

Author: _____

Who are the main characters in this book? _____

What was this book about? _____

What was your favorite part of the story? Why is it your favorite? _____

*Continued on back

Name: _____

Draw and fully color a detailed picture of your favorite part in the space below. Write the title of the book on the line provided.

Book #1 title: _____

Third Grade Summer Reading Book #2

Name _____

Please complete this book report using your best handwriting. Answer all questions in complete sentences, using correct capitalization and punctuation. Your answers should also include details. Additional sheets may be used if needed.

Title: _____

Author: _____

Who are the main characters in this book? _____

What was this book about? _____

What was your favorite part of the story? Why is it your favorite? _____

Name: _____

Draw and fully color a detailed picture of your favorite part in the space below. Write the title of the book on the line provided.

Book #2 title: _____

Summer Math Review for entering 3rd Graders

*** Summer Review ***

Keeping second grade math skills sharp over the summer is necessary to enter the third grade ready for instruction. Key math skills to practice during summer break are included in this packet.

- ___ being fluent with addition and subtraction facts (flash cards, games, call out facts on a walk...)
- ___ addition and subtraction regrouping with borrowing across multiple zeros
- ___ estimation & rounding to the nearest tens, hundreds, and thousands place (Call out a large number for your child to write down and then estimate or round to a specific place value. Play the "rounding game" when shopping.)
- ___ column addition (to prepare for advanced multiplication in 3rd grade and beyond)
- ___ multiplication facts of 0, 1, 2, 5, 10
- ___ foundations of multiplication count-by strips (count by 3, 4, 6, 7, 8, 9, 11, and 12) (in the blue folder)
- ___ telling time to the nearest minute (Use a real analog clock or watch and periodically ask your child for the time.)
- ___ counting money using coins and bills (Use real money, play store, estimate and add costs while shopping.)
- ___ understanding the language of word problems (when to add, subtract, or multiply) and accurately solving the problems, even those with multiple steps
- ___ reading and writing numbers to the hundred-thousand's place (and beyond)
- ___ dividing shapes into equal parts, as well as shading and identifying fractions
- ___ expanded notation (ex: $5,000 + 600 + 70 + 2 = 5,672$ and the reverse)
- ___ measuring to the nearest $\frac{1}{4}$ inch and nearest $\frac{1}{2}$ cm & labeling a ruler by writing mixed numbers: 0, $\frac{1}{4}$, $\frac{1}{2}$, $\frac{3}{4}$, 1, $1\frac{1}{4}$, $1\frac{1}{2}$, $1\frac{3}{4}$, 2, $2\frac{1}{4}$, $2\frac{1}{2}$, $2\frac{3}{4}$, 3... (Use a ruler or measuring tape to measure things inside and outside of your house.)
- ___ counting by 10's beginning 1, 2, 3, 4, 5, 6, 7, 8, and 9
- ___ patterns (shapes and numbers)

****Optional:** You may also get creative with games by using math fact cards to determine how many to move or by saying the addition fact and sum when rolling dice. Whatever you choose, encourage your child to practice their math skills, in addition to their summer reading, several times a week. Have a wonderful summer!!

Blessings,

😊 Amy Blackstock

Time: _____ minutes Score: _____ out of 100

Name: _____

Subtract. Check your work by using the inverse operation (addition).

$$\begin{array}{r} 1) \quad 7,241 \\ - \quad 378 \\ \hline \end{array}$$

$$\begin{array}{r} 2) \quad 6,000 \\ - 4,139 \\ \hline \end{array}$$

Subtract the money.

$$\begin{array}{r} 3) \quad \$4.75 \\ - \$2.06 \\ \hline \end{array}$$

$$\begin{array}{r} 4) \quad \$20.15 \\ - \$13.21 \\ \hline \end{array}$$

5) It is 3,385 miles to Grandmother's house. If Allie has already traveled 2,471 miles, how far does she still have to travel? _____

(Think... Am I looking for how many miles Allie traveled in all, or am I comparing the numbers to find the difference between them?)

5) While on vacation, Ricky saw one tree that was 1,930 years old and another tree that was 1,148 years old. What was the **difference** in the ages of the two trees?

😊 Remember our chant.... "Subtract, subtract, subtract, the difference is the answer."

Subtract.

$$\begin{array}{r} 1) \quad \$44.42 \\ - \$12.39 \\ \hline \end{array}$$

$$\begin{array}{r} 2) \quad \$31.21 \\ - \$21.18 \\ \hline \end{array}$$

$$\begin{array}{r} 3) \quad 45,037 \\ - 29,019 \\ \hline \end{array}$$

Add.

$$\begin{array}{r} 4) \quad 836 \\ \quad 955 \\ \quad 302 \\ + 150 \\ \hline \end{array}$$

$$\begin{array}{r} 5) \quad 469 \\ \quad 229 \\ \quad 698 \\ + 557 \\ \hline \end{array}$$

Give the time with hours and minutes.

6) _____

7) _____

8) Cathy did two chores. She earned \$55.25 and \$36.50. Cameron did one chore. He earned \$75.75. Find out who earned more. Can you remember how to use an inequality ($<$ or $>$) to show your answer? (Remember, the dinosaur eats the bigger number... go right on the number line.)

Subtract. Check your work by using the inverse operation (addition).

$$\begin{array}{r} 1) \quad 42,354 \\ - 10,188 \\ \hline \end{array}$$

$$\begin{array}{r} 2) \quad 62,654 \\ - 25,129 \\ \hline \end{array}$$

Add

$$\begin{array}{r} 3) \quad 782 \\ \quad 521 \\ \quad 411 \\ + 278 \\ \hline \end{array}$$
