

**Champion**<sup>™</sup>  
Safe Co.

# SERIES **TRIUMPH**

Overbuilt, Not Overpriced

**TR60 | TR50 | TR40 | TR25**

The Triumph Series is a decisive step up in protection engineered to exceed the standards set by typical gun safes in its class. Every Triumph offers more steel, more protection, and more confidence than comparable models from competing brands.

Its robust construction and advanced fire protection place it firmly in Champion's high-performance tier, making it well suited for serious firearm storage and high-value contents.

Available with a standard or all-shelf interior, the Triumph adapts to dedicated gun storage or broader security needs in residential and commercial environments. For customers who want a safe that clearly outperforms its peers, the Triumph delivers a level of protection that stands apart.
