# SERIES TROPHY

Overbuilt, Not Overpriced

**TY50 | TY40 | TY25**

Built with the same exacting precision and attention to detail as Champion's higher-end models, the Trophy Series delivers rugged, firearm-focused protection for home or business use.

Trophy safes secure firearms, handguns, and supporting valuables while reflecting Champion's long-standing commitment to quality and craftsmanship. It's a dedicated gun safe for customers who want premium construction without stepping into Champion's heaviest models.

It is available with a standard firearm interior or an all-shelf interior, allowing it to function as a dedicated gun safe or a more general security solution when needed. Suitable for garages, gun rooms, homes, or commercial spaces, the Trophy combines rugged protection with the fit and finish expected from Champion.
