## 2010 ANNUAL REPORT ONLINE

### SUMMARY DATA: INTERNSHIP PROGRAMS

# **INTRODUCTION**

The Annual Report was created in 1998 to provide the American Psychological Association's Commission on Accreditation (CoA) more in-depth information in between full programmatic reviews. In order to maintain accreditation from one year to the next, programs must submit detailed information in the Annual Report. In previous years, the Annual Report was submitted in paper format; however, as of 2003 all submissions were required to be completed online. Since that time, programs have submitted their information via the Annual Report Online (ARO). The ARO requires programs to submit data about their supervisors and interns, as well as information on the program as a whole. This document provides a summary of the data provided on the 2009-2010 academic year.

In the past, summary reports such as this were printed and provided annually to our constituents, professional psychology organizations, and to members of the public upon request. However, the CoA believes that these data will be better available to public electronically. Accordingly, from this point forward, all annual summary reports will be solely provided on the public website of the [Office of Program Consultation and Accreditation](#) (OPCA).

The data are provided in three main sections. First we provide data on the program as a whole. This includes items such as program frequencies and annual stipends for full-time interns. The second section provides data on interns. You can find demographic information and professional activities here. The last section summarizes data on supervisors. This is where demographic and professional activities can be found.

To better understand the data, we encourage you, as the reader and consumer, to use the information provided for your own analyses. We hope that this will facilitate better understanding of the changes occurring in our field now and in the future. If you have any questions or concerns about the data, please do not hesitate to contact the OPCA.

# 2010 Internship - Supervisor Level Data

## III-B-1. Supervisor Classifications

During the full-review process, programs must demonstrate that they have resources of appropriate quality and sufficiency to achieve education and training goals and objectives. The number and quality of supervisors falls under this requirement. When completing records on supervisors, programs must identify their role by selecting a classification. The definitions of these classifications are provided below.

Classification	Definition
Training Supervisor	Staff who are involved with planning/implementation of the internship and who have direct contact with interns.
Other Agency/ Institution Supervisors	Staff who are not involved in planning/implementation of the internship but who have direct contact with interns.
Other Contributors	Staff who are not involved in planning/implementation of the internship and who do not have direct contact with interns, but who provide training opportunities (e.g., didactic seminars).
