COMMISSION ON ACCREDITATION 2010 ANNUAL REPORT ONLINE SUMMARY DATA: POSTDOCTORAL PROGRAMS

INTRODUCTION

The Annual Report was created in 1998 to provide the American Psychological Association's Commission on Accreditation (CoA) more in-depth information in between full programmatic reviews. In order to maintain accreditation from one year to the next, programs must submit detailed information in the Annual Report. In previous years, the Annual Report was submitted in paper format; however, as of 2003 all submissions were required to be completed online. Since that time, programs have submitted their information via the Annual Report Online (ARO). The ARO requires programs to submit data about their residents and supervisors, as well as information on the program as a whole. This document provides a summary of the data provided on the 2009-2010 academic year.

In the past, summary reports such as this were printed and provided annually to our constituents, professional psychology organizations, and to members of the public upon request. However, the CoA believes that these data will be better available to public electronically. Accordingly, from this point forward, all annual summary reports will be solely provided on the public website of the [Office of Program Consultation and Accreditation](#) (OPCA).

The data are provided in three main sections. First we provide data on the program as a whole. This includes items such program frequencies and annual stipends for full-time residents. The second section provides data on residents. You can find demographic information and professional activities information here. The last section summarizes data on supervisors. This is where demographic and professional activities can be found.

To better understand the data, we encourage you, as the reader and consumer, to use the information provided for your own analyses. We hope that this will facilitate better understanding of the changes occurring in our field now and in the future. If you have any questions or concerns about the data, please do not hesitate to contact the OPCA.

Resident Professional Activities

Accredited programs are required to provide annual updates on the professional activities of their residents. Postdoctoral residents need to provide updates on five activities from the current year. The full wording of these questions is provided below as well as how they are labeled in the subsequent tables.

Question #	Column Label	Question Wording
1	Member	Indicate if the resident is a member of a professional or research society by selecting either "Yes", "No" or "N/A".
2	Grants	Indicate if the resident was the recipient of federal grants or private foundation awards during the current reporting period by selecting "Yes," "No," or "N/A."
3	Leadership	Indicate if the resident was involved in leadership roles or activities in professional organizations during the current reporting period by selecting "Yes," "No," or "N/A." These can include roles in state/provincial, regional, or national professional organizations.
4	Articles	Enter the number of books, book chapters or articles in peer-reviewed professional or scientific journals the resident has been an author or co- author of. This only includes work published during the current training year. (publications "in press", "under review", or "submitted" should not be counted here).
5	Presentations	Enter the number of workshops, oral presentations, and/or poster presentations at professional meetings the resident has been an author or co-author of. This only includes work presented during the current training year.
