Programs granted this status are reviewed by the CoA on an annual basis. Dates listed are for the program's next site visit; these dates are omitted if the next site visit is contraindicated by the program's scheduled closure date.

³ Whenever it is deemed appropriate, the CoA may defer making a decision about a program in order to obtain more information due to a lack of information or specific concerns about the information provided. The CoA will notify the program in writing and specify what additional information is needed and/or what concerns need to be addressed in order to determine the program's consistency with the SoA.

⁴ Internship programs granted Accredited on Contingency status are to submit data to obtain full accreditation within a two-year time frame if the program is full-time (four years if a half-time program). See IR C-26 I.
