ORG (Organic): No chemical herbicides/pesticides; only natural treatments allowed.

BIO (Biodynamic): Builds on organic farming, aligning vineyard work with lunar/earth cycles; uses special composts and animal products to enrich soil life.

NAT (Natural): No fixed definition; typically organic/biodynamic, hand-harvested, native yeasts, little/no sulfur, no fining, filtering, chaptalization, new oak, or cellar manipulation.

SUS (Sustainable): Ecologically sound practices, mainly organic but may allow limited chemical use; emphasizes energy/water conservation and renewables.
