

Tessa Jackson began her dance journey at the age of three and discovered her love for competitive dance by age seven. With more than 20 years of dance training and over eight years of teaching experience, she brings both technical excellence and genuine enthusiasm to every class she teaches. Throughout her career, Tessa has trained extensively in ballet, jazz, lyrical, contemporary, hip hop, tap, musical theatre, conditioning, and flexibility while studying with respected professional choreographers and educators.

As an accomplished choreographer, Tessa has earned multiple honors for her creative work, including Artistic Vision and Standout Choreography awards. Her choreography has received numerous First Overall placements at regional competitions, reflecting her commitment to artistic excellence and innovative storytelling through dance.

Tessa is passionate about creating a positive, encouraging classroom where dancers feel challenged, supported, and inspired. She believes every student has unique potential and strives to build strong technique, confidence, and artistry while encouraging dancers to take creative risks and express themselves through movement. Her goal is to help each dancer develop not only as a performer but also as a confident and compassionate individual, fostering a lifelong love of dance.

West Main Studios is excited to welcome Tessa to our faculty for her first season with us. We are thrilled to have her talent, creativity, and passion for dance as part of the WMS family, and we look forward to the inspiration and excellence she will bring to our students throughout the years to come.
