Company Overview

govIRG is recognized as a business solutions provider for government contractors. Our goal is to implement the systems for your business and be your back-office staff, or train and augment your staff, to provide the highest quality G&A dollar for the best price. Our "Compliance to Guidance" direction is what sets us apart. We not only help you with compliance, but we also have the tools and expertise to help you harness the compliance in a way that will help you guide your company in achieving your goals.

Our team of specialists is uniquely equipped to assist your company with DCAA Compliance, Accounting System implementation and Accounting Services, Contracts Management, Financial Advisory Services, Human Resources Services and Business Tax Services. Our staff has over 125 years of cumulative experience working with government contracts. govIRG's consultants deliver a diverse yet specialized range of experience, covering the gamut of government business processes, regulations and current best business practices. Our team of specialists combine industry leading initiative with an unbridled level of service to ensure your business captures revenue through government contracts, while maintaining proper regulatory compliance.

govIRG works with a diverse group of government contractors across the country. The list below indicates the scope of key services we support:
