Welcome to DeltaNAE

1 March 2024 saw the strategic merger of Delta Electrics and North Australian Electrical (NAE) into a new force set to redefine excellence in our product offerings, amplify our capacity, and elevate our collective capabilities - Delta Electrics NT Pty Ltd, trading as **DeltaNAE**.

This merger united Delta Electrics' extensive experience in renewable energy, power generation, fuel systems, UPS, and more with NAE's stronghold in air conditioning and comprehensive HVAC solutions. As DeltaNAE, we offer a comprehensive suite of electrical services, covering design, installation, maintenance, and ongoing support.

Led by Anthony Reiter, as DeltaNAE's General Manager and management board Director of Delta Electrics NT Pty Ltd, the board takes on new blood, with Mark White, Business Manager and Director and Mitchell Wagland Services Manager and Director at the helm, both long term members of the Delta team.

In a planned succession, after over 40 and 23 years respectively, former Delta Directors John White and Damon Wagland will pass the torch to Mark and Mitchell and we respectfully farewell Delta's former General Manager Andrew Boller, after contributing significantly to the company and extend our sincere thanks to Andrew for his valuable contributions.

Our directors are long-term Territorians, deeply committed to supporting the local industry. Their extensive knowledge of the Northern Territory's unique challenges positions DeltaNAE to be a reliable partner in advancing the region's energy solutions.

Get to know our Team

At the heart of this merger are our dedicated and skilled team members from both companies, joining forces as DeltaNAE:

Corey Impelmans, Delta Electrics Operations Manager
Corey brings extensive industry experience and a commitment to operational excellence.

Anthony Zamolo, Delta Electrics Sales and Business Development Manager
Anthony is a seasoned professional known for his client-focused approach and strategic sales leadership.

NAE brings Addison Barley, Senior Electrical Supervisor, with a comprehensive IT background as well as strong electrical knowledge, and Ricky Carter, Senior Supervisor Refrigeration Mechanic to complete the service team.

Together with our other sales professionals, administrative staff, tradespeople, and technical experts, they form the backbone of our success and a major strength of this merger.

Together with our sales professionals, administrative team, tradespeople, and technical experts, DeltaNAE has a strong and committed team as the backbone of our success.

As we transition and strengthen as DeltaNAE, we ask you to stay tuned for more updates - we are committed to creating an innovative, successful and trusted industry name that will shape the future of energy solutions in the Northern Territory.
