

Call for Speakers: 2027 ASN Webinar Series

Once again, it is that time of year when we begin planning the American Society of Neuroimaging (ASN) Webinar Series for the upcoming year.
We are currently seeking speakers for our 2027 webinar schedule and invite you to participate in continuing this high-quality educational series.
We encourage submissions on a broad range of neuroimaging-related topics, including emerging technologies, clinical applications, research advances, case-based discussions, and multidisciplinary approaches to patient care.
If you are interested in presenting, please contact **Chris Ralyea at cralyea@dentinstitute.com** with your proposed lecture topic(s) and preferred presentation date(s).

Thank you for your continued support of ASN and your contributions to advancing neuroimaging education. We look forward to another outstanding year of educational programming and to showcasing the expertise of our members and colleagues throughout 2027.

Dr. Zain Guduru Served as ASN's Delegate at the 2026 AMA Interim Meeting

Dr. Zain Guduru served as ASN's Delegate to the 2026 American Medical Association (AMA) Interim Meeting of the House of Delegates.
The meeting took place November 6-10, 2026, at the Walt Disney World Swan and Dolphin Resort in Orlando, Florida, bringing together physician leaders and specialty society representatives from across the country to

discuss key issues affecting healthcare, medical education, physician practice, and patient care.

As ASN's Delegate, Dr. Guduru represented the interests of the neuroimaging community and contributed to important policy discussions that help shape the future of medicine.

We thank Dr. Guduru for his service and commitment to advancing ASN's mission and voice within the broader medical community.

Clinical Neuroimaging Recognizes Its 2026 Top Reviewers

Clinical Neuroimaging, the official open access journal of the American Society of Neuroimaging, thanks its 2026 Top Reviewers for outstanding service to the journal: Amirmohammad Eghbalnejad, Toshinobu Ifuku, Seyed Behnam Jazayeri, Muhib Khan, Meghavi Mashar, James B. Meiling, Alex Silaghi, Jasmeet Singh, and Abhilash Thatikala.

Rigorous, timely peer review is central to the quality of every article we publish. Each Top Reviewer will receive a certificate of recognition.
We welcome new reviewers in all areas of clinical neuroimaging. To join our reviewer pool, contact editor@clinicalneuroimaging.org.
Read and submit: https://onlinelibrary.wiley.com/journal/28373219

Celebrate Excellence: Submit Your Abstract for the ASN Annual Meeting

Each year, ASN honors outstanding research presented by students, residents, and fellows through its prestigious **Annual Meeting Abstract Awards.** These awards—including the Oldendorf, McKinney, Qureshi, and Resident Awards—recognize original work that advances neuroimaging across CT, MRI, SPECT, PET, neurosonology, and diagnostic angiography.

Award recipients present their research during the President's Reception/Business Meeting and receive travel support, waived registration, and a **$500 cash prize**.

Explore past recipients and celebrate the emerging leaders shaping the future of neuroimaging.

Submit your abstract.

Join Us at the 2027 ASN Annual Meeting

We're bringing together clinicians, researchers, educators, and innovators for a dynamic event filled with learning, connection, and inspiration. The ASN Annual Meeting is your opportunity to engage with the community shaping the next chapter of neuroimaging and advance your professional growth.

Secure your spot and be part of the conversations driving our field forward.

Certainty in Silence: Mastering Brain Death Determination

Join the American Society of Neuroimaging during the 50th Annual Meeting for a comprehensive educational session focused on the clinical, physiological, and imaging aspects of brain death determination.
Sunday, January 17, 2027
9:00 a.m. – 12:00 p.m. EST
This CME-accredited course will provide participants with a systematic approach to brain death determination, including:

- Clinical examination and assessment
- Apnea testing preparation and interpretation
- Ancillary testing indications and applications

Faculty experts include:

- Dr. Palmer Greene, Emory University
- Dr. David Greer, Boston University
- Dr. Vasisht Srinivasan, University of Washington

Whether you are a neurologist, intensivist, neurocritical care specialist, radiologist, advanced practice provider, or trainee, this session will deliver practical guidance and current best practices for confidently navigating brain death determination.
Pre-registration is required.
Register today at www.asnweb.org/2027-annual-

ASN Workshop: Ultra-Low Field MRI

Applications in Neurological Care & Neuroimaging Practice

The American Society of Neuroimaging (ASN) invites attendees of the 50th Annual Meeting to participate in an exclusive educational workshop focused on the expanding role of ultra-low field MRI in neurological care and neuroimaging practice.
Thursday, January 14, 2027.

Designed for a limited number of participants, this interactive workshop will provide high-quality education and practical training on the clinical applications of portable ultra-low field MRI technology. The program will emphasize case-based learning and real-world implementation across inpatient and outpatient settings.
Topics will include:

- Portable MRI applications in neurological care
- LAC MRI Accreditation
- ASN Neuroimaging Certification requirements
- Portable MRI scanner definitions and safety considerations
- Technical staffing requirements
- Operational and implementation considerations
- The clinical and economic value proposition of portable MRI

meeting and join us for this important educational program during the ASN 50th Annual Meeting.

Participants will earn 7 CME Credits upon completion of the workshop.

Expert Faculty

- Laszlo Mechtler, MD, FAAN, FEAN, FASN, FAHS; President, DENT Neurologic Institute
- Madhureeta Achari, MD, FAAN, FITNS; Principal Neurologist & CEO, Integrated Neurology

Registration is limited and expected to fill quickly. Secure your place and explore how ultra-low field MRI is transforming access to advanced neuroimaging and enhancing patient care across diverse clinical settings. Register through the ASN Annual Meeting website today.

MRI Neuroimaging Workshop

Enhance your neuroimaging knowledge and clinical skills at the ASN MRI Neuroimaging Workshop, a focused educational program designed for learners at all stages of training and practice.

Saturday, January 16, 2027

2:00–4:30 PM

2.5 CME Credits

This interactive workshop will provide a comprehensive review of essential MRI principles while exploring advanced clinical applications relevant to modern neurological practice.

Workshop Highlights

- Core MRI sequences

CT Neuroimaging Workshop

Expand your neuroimaging expertise at the ASN CT Neuroimaging Workshop, an educational session designed to provide a comprehensive review of CT imaging principles and their application in neurological diagnosis and patient care.

Friday, January 15, 2027

1:30 PM – 4:00 PM

2.5 CME Credits

Through a focused curriculum aligned with Neuroimaging Certification Examination content outlines, participants will build a stronger understanding of both basic and advanced CT neuroimaging concepts.

Workshop Highlights

- Magnetic Resonance Angiography (MRA)
- Magnetic Resonance Venography (MRV)
- Diffusion imaging
- Perfusion imaging
- MR spectroscopy

The curriculum is aligned with Neuroimaging Certification Examination content outlines, making it an excellent educational resource for those preparing for certification or looking to reinforce foundational knowledge.
Enrollment is limited to 80 participants.

- Noncontrast CT interpretation
- CT Angiography (CTA)
- CT Perfusion (CTP)
- Recognition of acute neurologic pathology
- Evaluation of chronic neurologic disease processes
- Clinical application of advanced CT imaging techniques

Enrollment limited to 80 participants.

Sonographers, This Is for You!

Scanning the Horizon: Where Can Sonography Take You?

Join the American Society of Neuroimaging's 50th Anniversary Annual Meeting and discover the many opportunities available to sonographers within the evolving field of neuroimaging.
Whether you are looking to advance your career, expand your professional network, or become more involved in ASN initiatives, this meeting offers dedicated opportunities to help you grow and connect with colleagues who share your passion for excellence in patient care and diagnostic imaging.
Professional Tracks for Sonographers

At this year's Annual Meeting, attendees will have the opportunity to:

- Explore career pathways and professional development opportunities
- Connect with fellow sonographers and neuroimaging professionals
- Learn how to become more engaged with ASN programs, committees, and educational initiatives

Multiple Opportunities. One Community.

Discover how ASN can support your professional journey while connecting you with leaders and peers from across the neuroimaging field. Whether you are an experienced sonographer or early in your career, you'll find valuable

educational sessions, networking opportunities, and resources designed to help you succeed.

Register today and be part of the conversation.

We're Still Looking for Exhibitors and Sponsors

The **2027 Exhibitor and Sponsor Prospectus** is now available, offering a full overview of high-value opportunities to elevate your organization's visibility and impact within the neuroimaging community. Whether you're looking to strengthen brand recognition, engage directly with attendees, or support key programming, the prospectus outlines a range of strategic sponsorship and exhibiting options.

Position your organization where innovation and leadership meet. **Download the 2027 Exhibitor and Sponsor Prospectus** to explore how you can make a meaningful presence at next year's event.

Download ASN's Annual Meeting App

ASN is excited to launch our new **Event App**, designed to make every conference experience smarter, smoother, and more connected. Access the complete meeting program, browse abstracts, build a personalized schedule, and navigate sessions with interactive maps—all from your mobile device. Stay current with real-time updates, integrate social media, and keep essential resources at your fingertips throughout the event.

Download the app today and get ready for a more seamless, informed, and engaging ASN meeting experience.

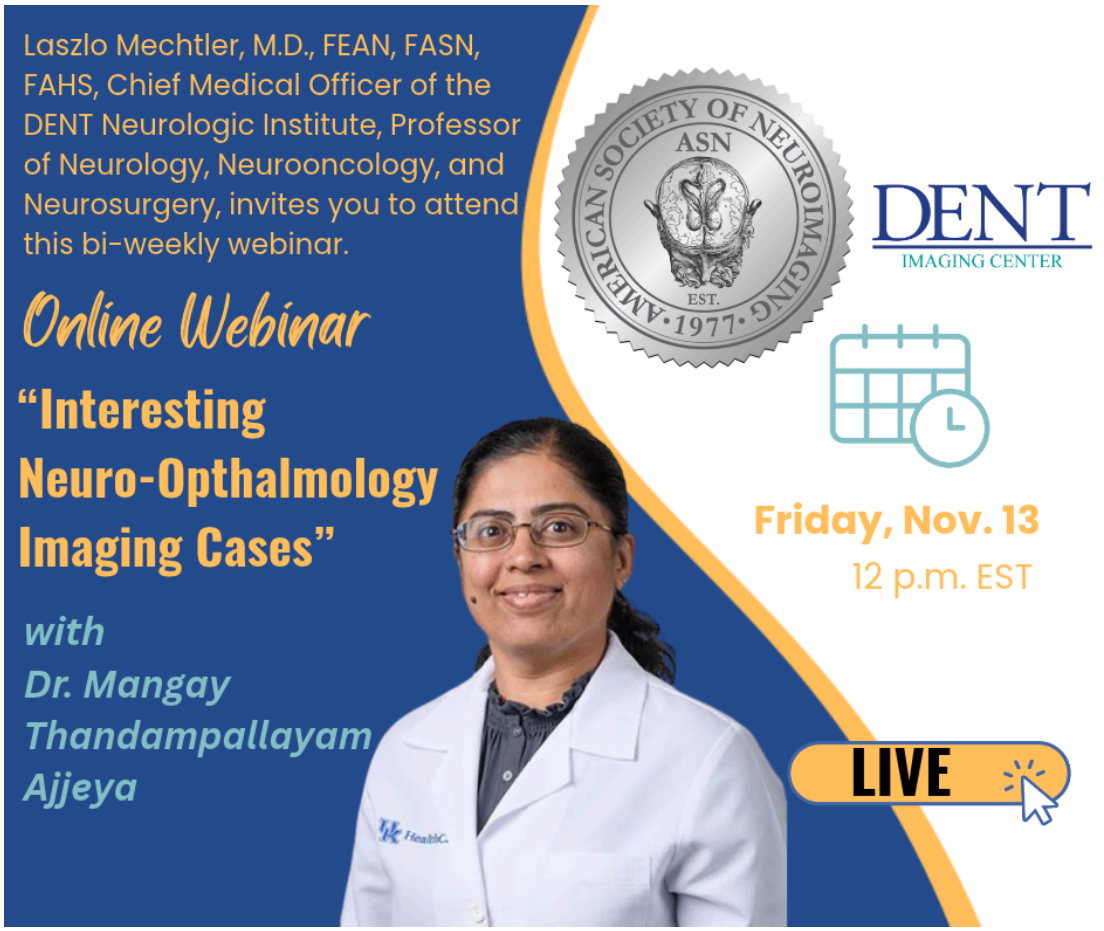

Nominations Open: Lifetime Achievement Award

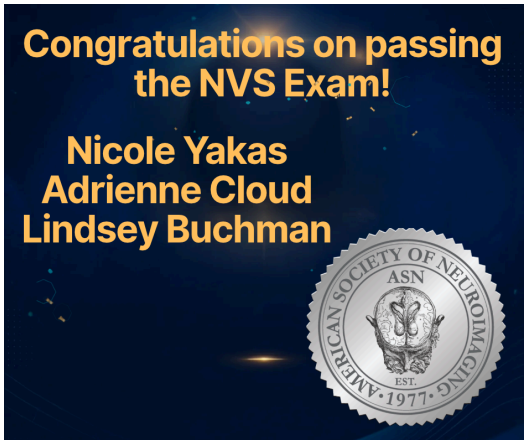

ASN invites members to nominate individuals whose careers reflect exceptional dedication and enduring contributions to the field of neuroimaging for the **Lifetime Achievement Award**. This distinguished honor recognizes leaders who have made a significant and lasting impact on the neuroimaging subspecialty while demonstrating meaningful service to ASN.

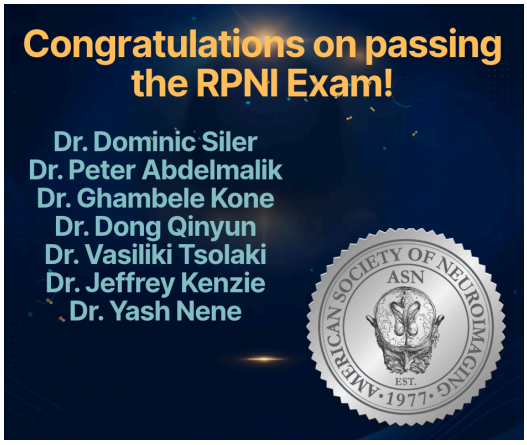

Nominations must include a detailed description of the nominee's achievements, contributions to neuroimaging, and service to the Society, and must be submitted using the official nomination form.

To encourage consideration of outstanding candidates over multiple years, nominations will remain active and be reviewed for the **three award cycles following submission**. Please note that **self-nominations are not accepted**.

Help us recognize those whose careers have advanced the field and inspired future generations of neuroimaging professionals. Make a nomination.
