ABOUT

IAN & WALLY

Ian is the founder of Eventide Animal Sanctuary. He used to live in England and came to Australia to find a new way of life. One day, as he was travelling around the country, he met Wally, a stray bush dog who had found shelter at a workshop. Wally's leg was badly cut so Ian decided to take care of him. Wally liked Ian and they did lots of things together. They continued to travel around Australia and had many adventures.

Rescuing Wally made Ian realise he wanted to help other animals too. He moved to Tasmania and set up Eventide so he could care for other animals who didn't have a permanent home.

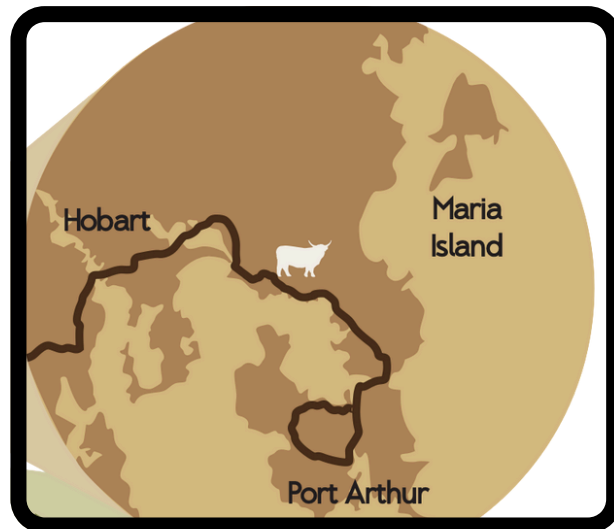

THE PLACE

HOW TO FIND US

Eventide can be found on the road to Port Arthur at 473 Sugarloaf Rd, Carlton River.

To book a visit, see [website](http://www.eventidesanctuary.com.au) www.eventidesanctuary.com.au for details.

THE ANIMALS

WHERE DO THE ANIMALS COME FROM?

All the animals at the sanctuary have been rescued from places where they were no longer safe or could not be cared for any more.

Once at the sanctuary they have a home forever. All the animals are cared for in a loving and respectful place where they feel safe and happy and can roam freely with other animals.

THE ANIMALS

**WHAT KIND OF
ANIMALS
ARE THERE?**

PYGMY GOATS

MOZART & BEETHOVEN

Mozart and Beethoven are two pygmy goats. They came to the sanctuary because their human family had a very ill child and they could no longer give the goats the time and care they needed.

Mozart and Beethoven are always getting into mischief! They do lots of silly things which make people laugh. They love their new home.

There are other goats to see too!

CALVES

HELGA & GEORGE

Helga and George were both very young calves that were rescued from a dairy farm. Ian reared the calves and hand-fed them milk many times a day. They grew up big and strong and love being at the sanctuary.

Helga and George love meeting visitors. They are very playful and their antics make people smile!

SHEEP

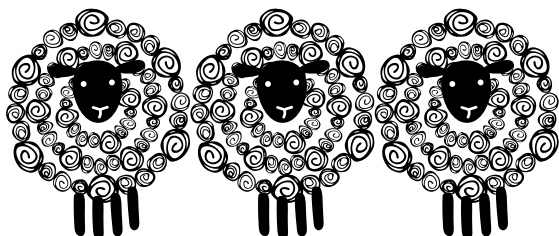

JESSIE

Jessie was born at the sanctuary but her mother couldn't look after her so Ian raised her instead. He fed her and took her everywhere with him - even to the shops!

Jessie grew into a happy, healthy sheep.

Jessie loves cuddles and treats and everyone who visits the sanctuary falls in love with her!

DUCKS

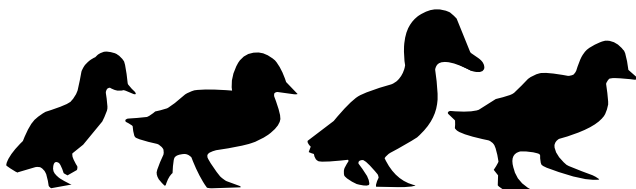

HUEY & DUEY

Huey and Duey came to the sanctuary when they were still eggs!

Ian hatched the eggs indoors and the two ducks have been together ever since. They do everything together.

Huey and Duey follow Ian around everywhere he goes. They think he is their mother!

ANIMAL FACTS

HIGHLAND CATTLE

There are four highland cows at the sanctuary and their names are William, Arthur, Robert & Bruce.

- This breed of cattle comes from Scotland.
- They are famous for their long, shaggy hair and large horns.
- They are gentle and friendly.
- They can live in harsh, cold climates.
- They are usually reddish-brown in colour but can also be black, yellow, white and brindle.
- A group of highland cattle is called a fold.

ANIMAL FACTS

ALPACAS

There are five alpacas at the sanctuary and their names are Tosca, Archie, Felix, Crumpet & Cushion.

- Alpacas are members of the camel family.
- They come from South America.
- They do not live in the wild but live with human families instead.
- They look similar to llamas but are much smaller.
- They are famous for their wool which is much softer than sheep's wool.
- When alpacas give birth it is called unpacking!

ANIMAL FACTS

CHICKENS

There are lots of chickens at the sanctuary and you can meet them all when you visit.

- Chickens are very smart animals. They learn quickly and can solve problems.
- They like to live in groups called flocks and they form close bonds with each other.
- A male chicken is called a rooster and a female is called a hen.
- Chickens are the closest living relative to the T-rex dinosaur!

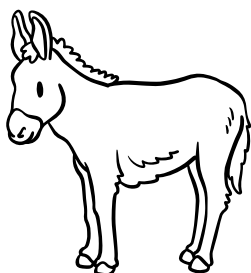

ANIMAL FACTS

DONKEYS

- Donkeys are very smart and have good memories.
- They like to live with other donkeys and can live for up to 50 years.
- The sound a donkey makes is called a bray.
- Donkeys are friendly but they can be very cautious about new things.
- The large ears of a donkey help to keep them cool.

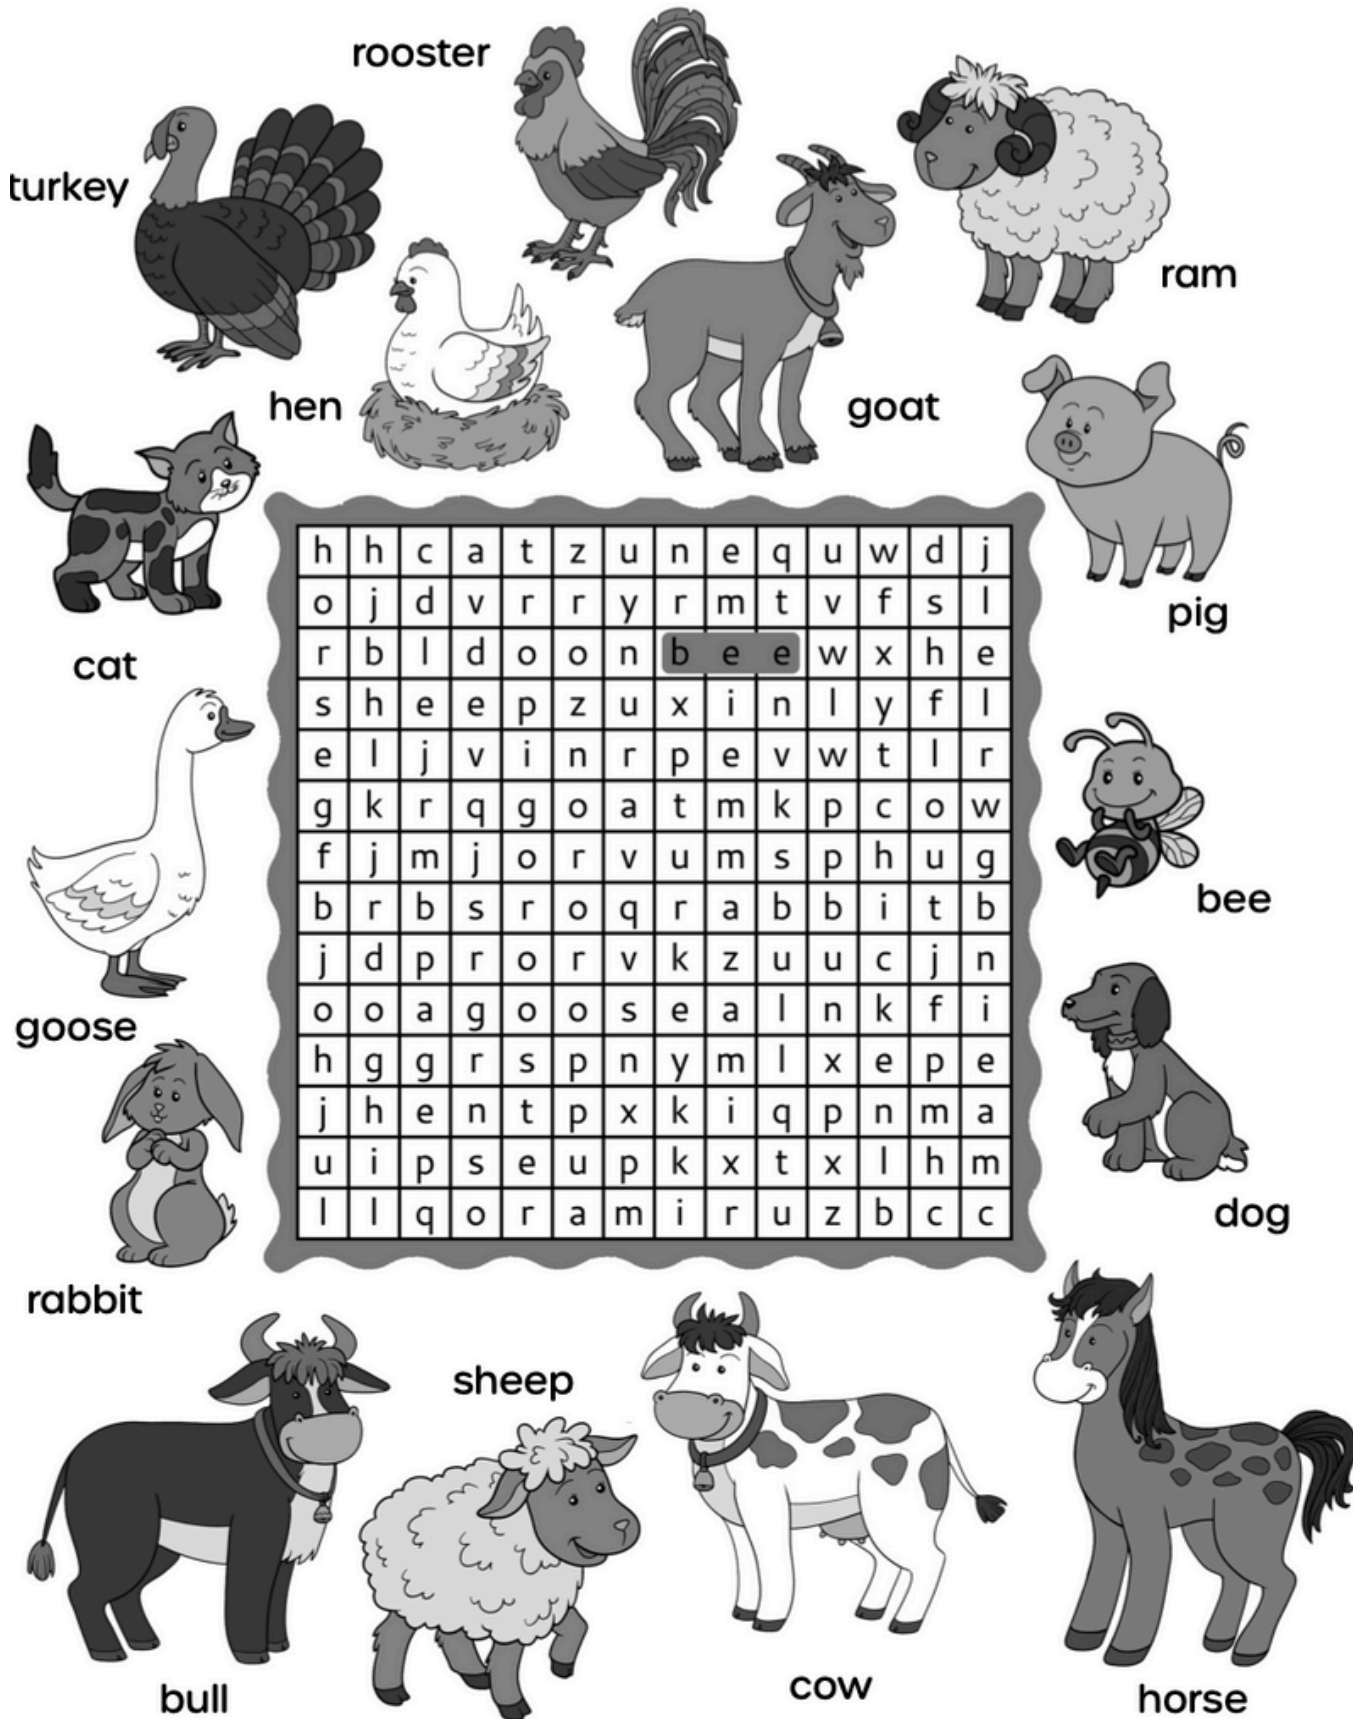

There are two donkeys at the sanctuary. They are called Eddie and Clint. Eddie loves having a selfie taken!

PUZZLE 1

WORD SEARCH

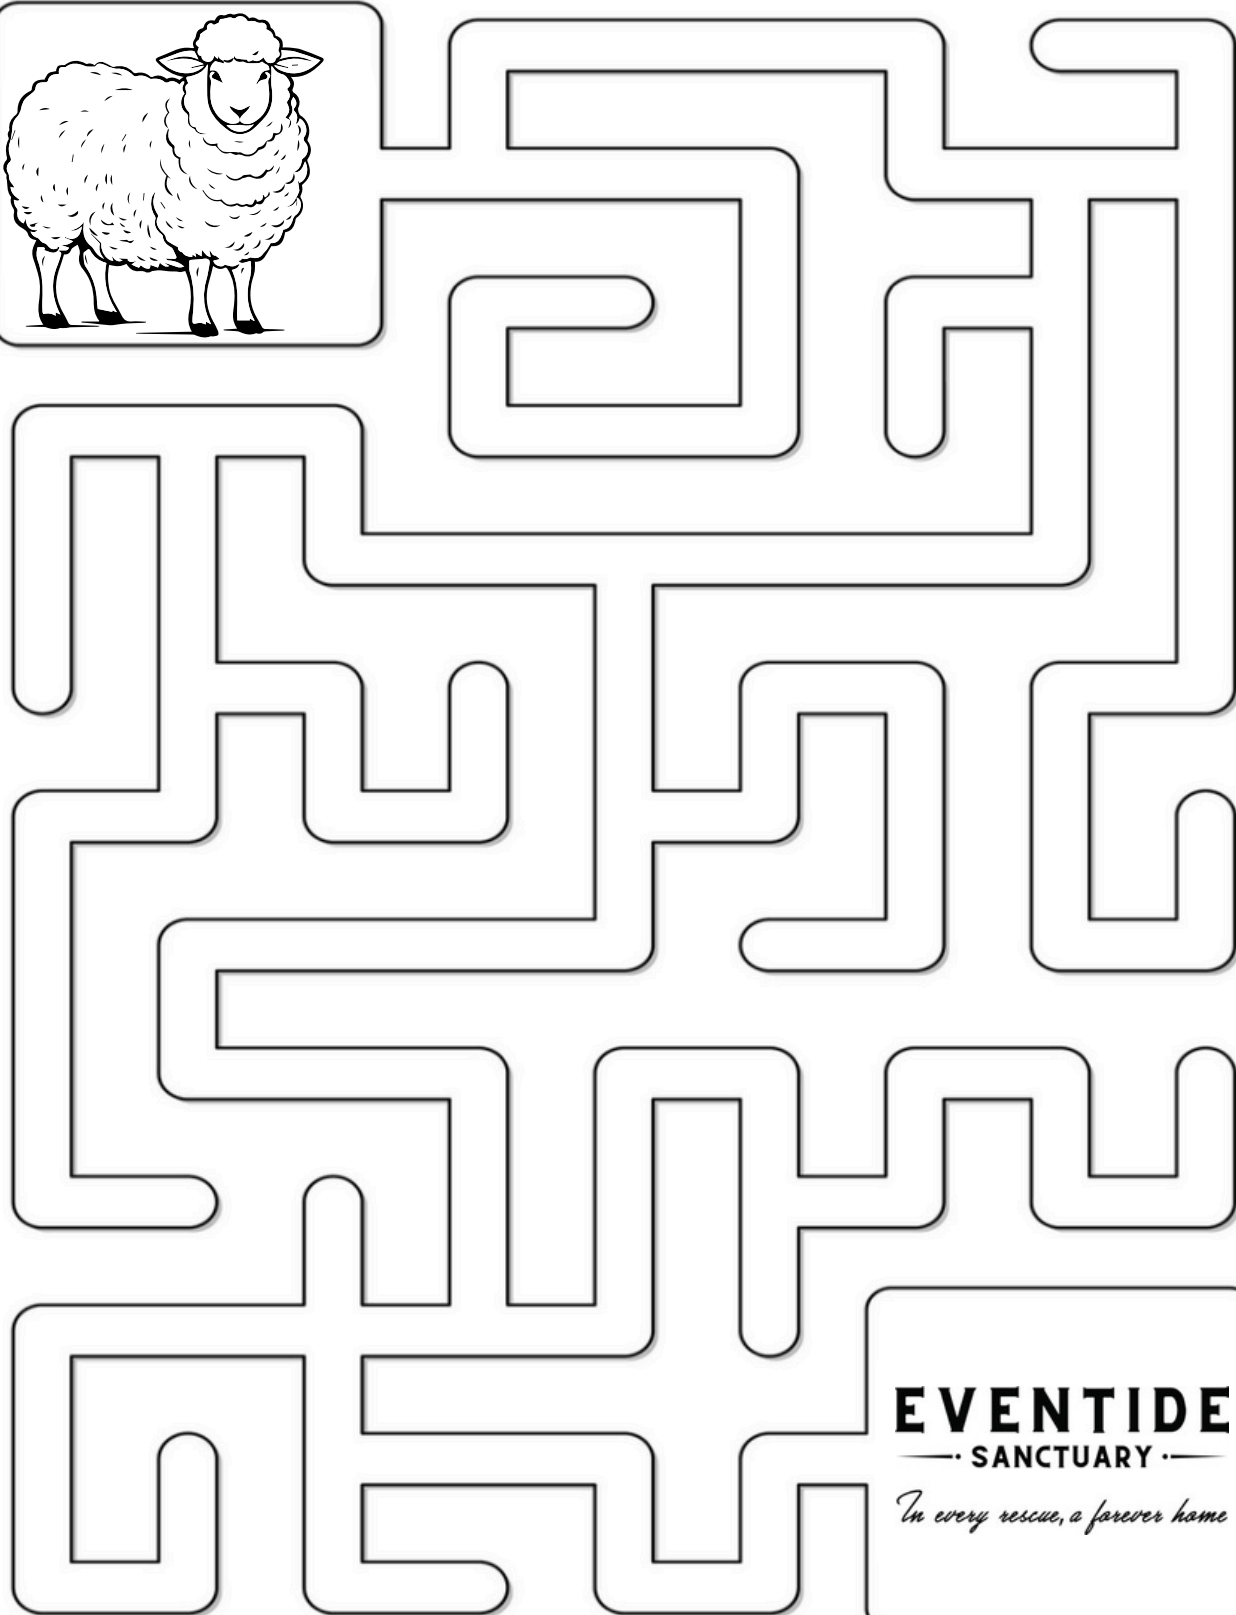

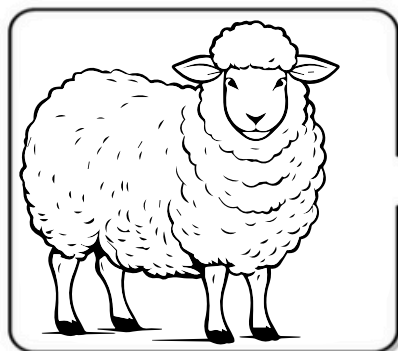

Find all the animals in the word search.

PUZZLE 2

MAZE

Help the sheep find its way to the sanctuary.

EVENTIDE
— SANCTUARY —

In every rescue, a forever home

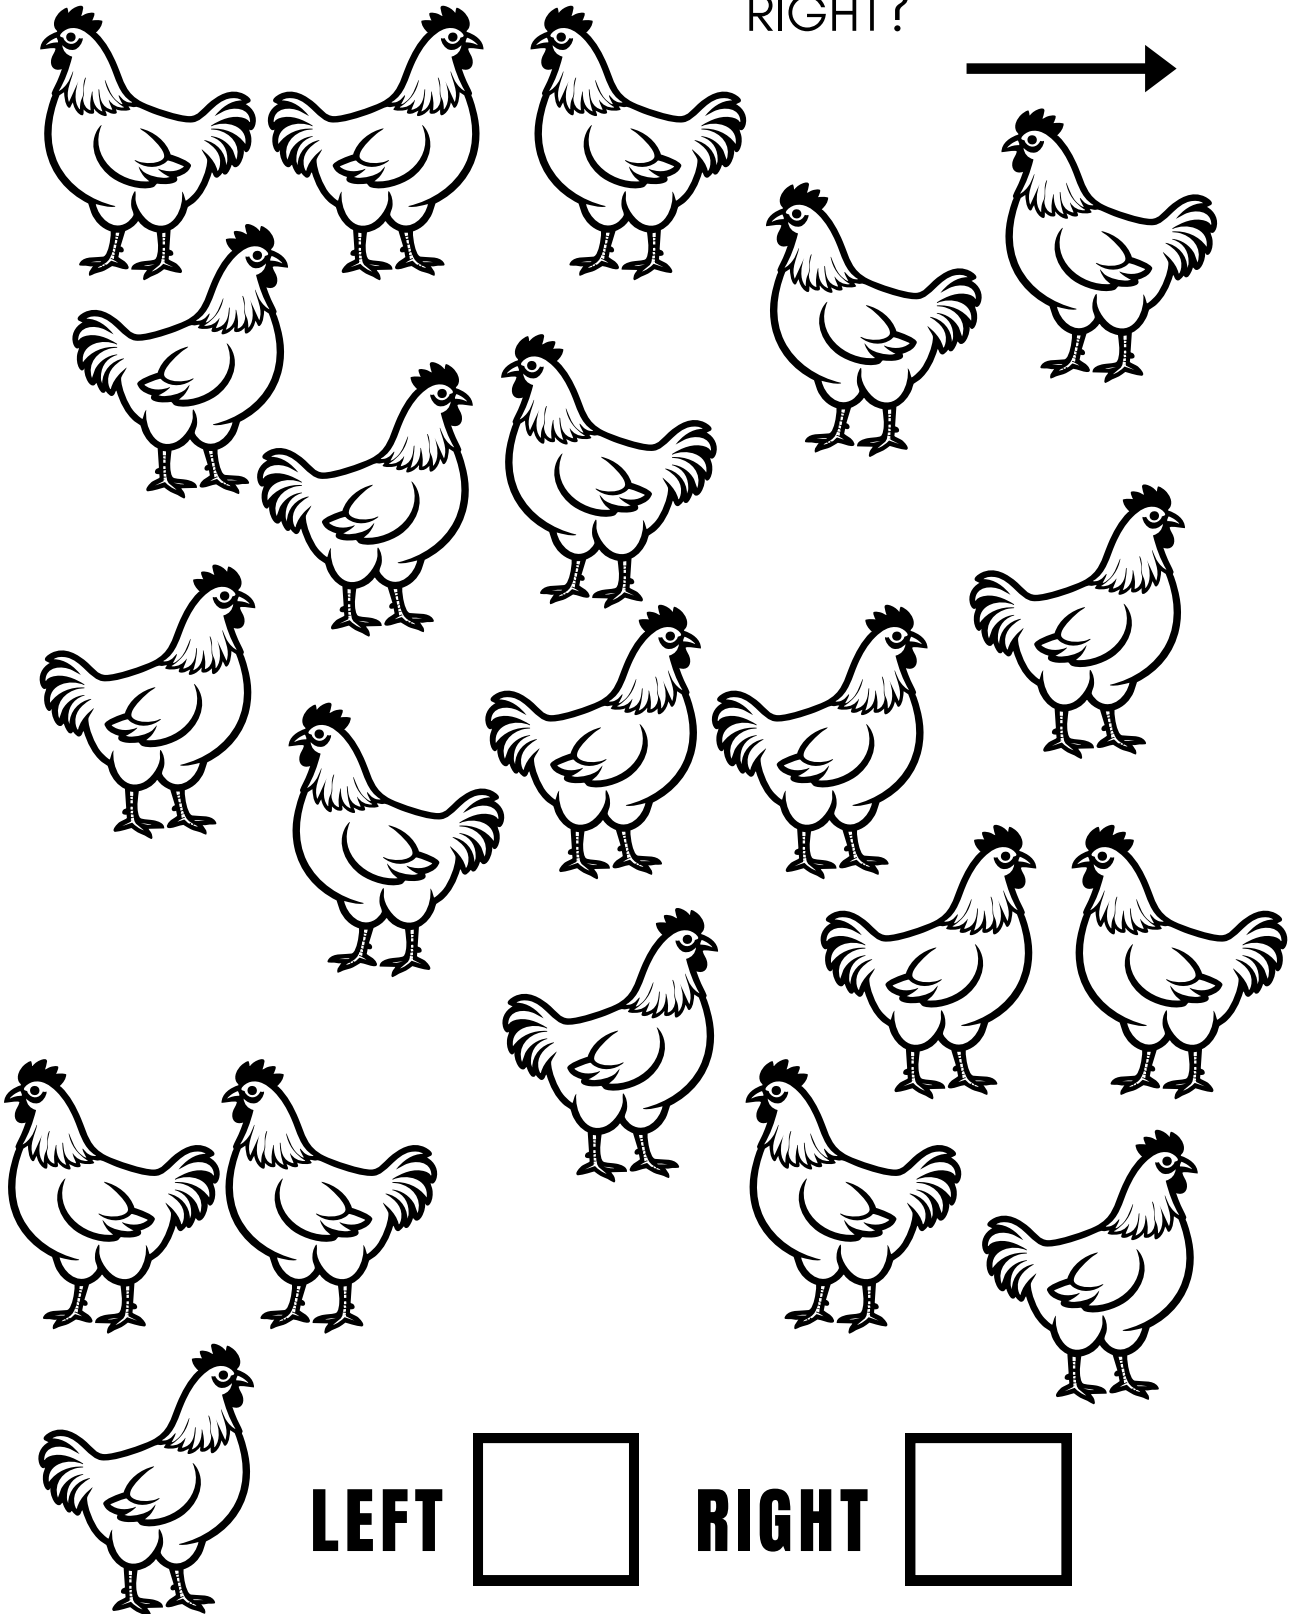

PUZZLE 3

LEFT OR RIGHT?

How many chickens
are facing LEFT?

How many are facing
RIGHT?

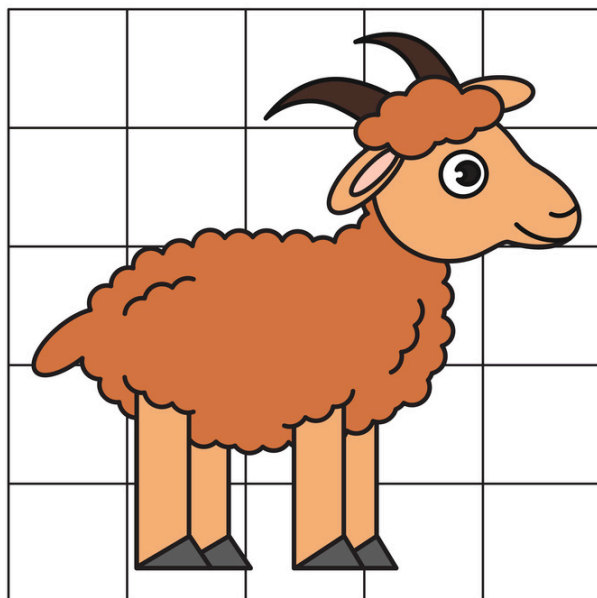

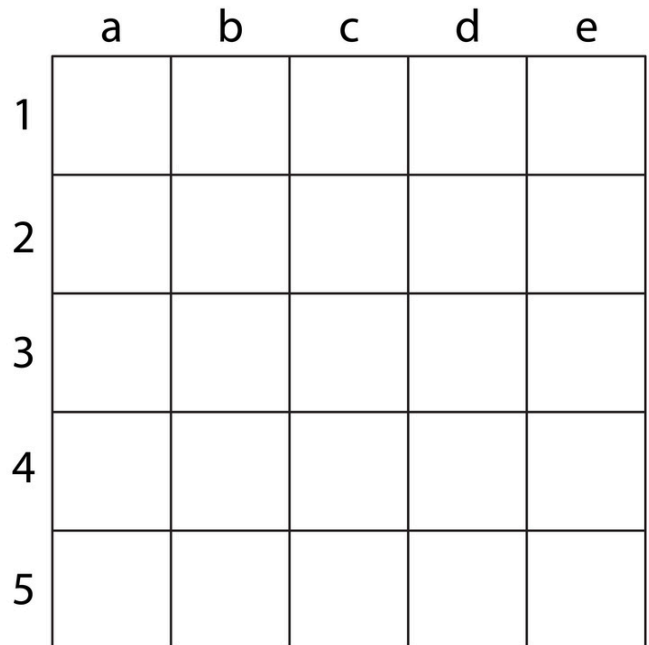

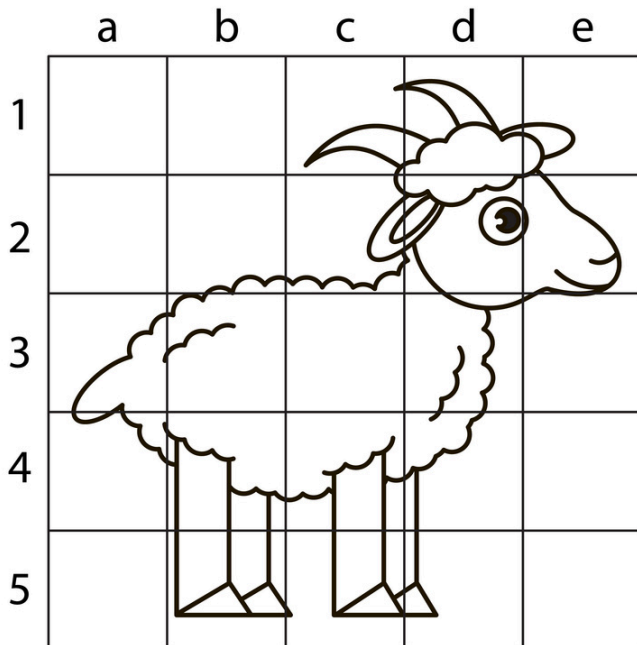

LEFT

RIGHT

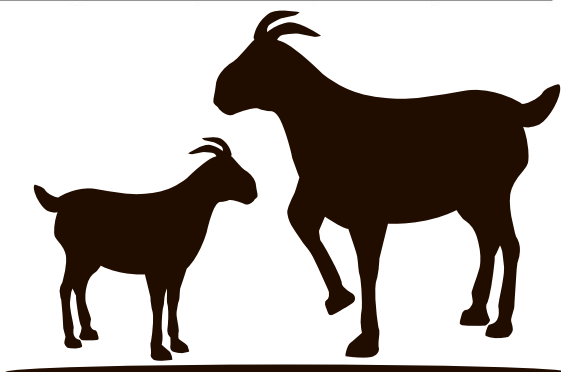

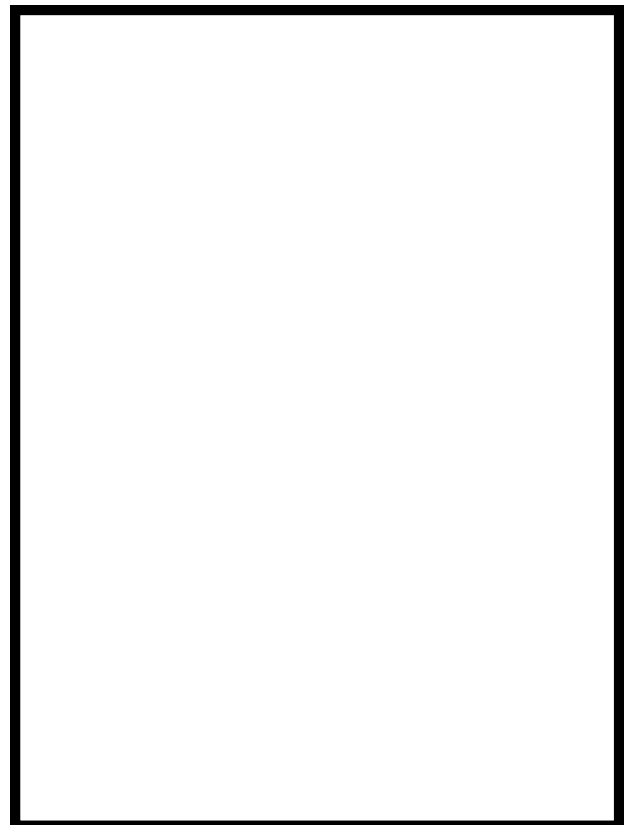

PUZZLE 4

COPY & DRAW

Copy the picture using the grid.
Colour it.

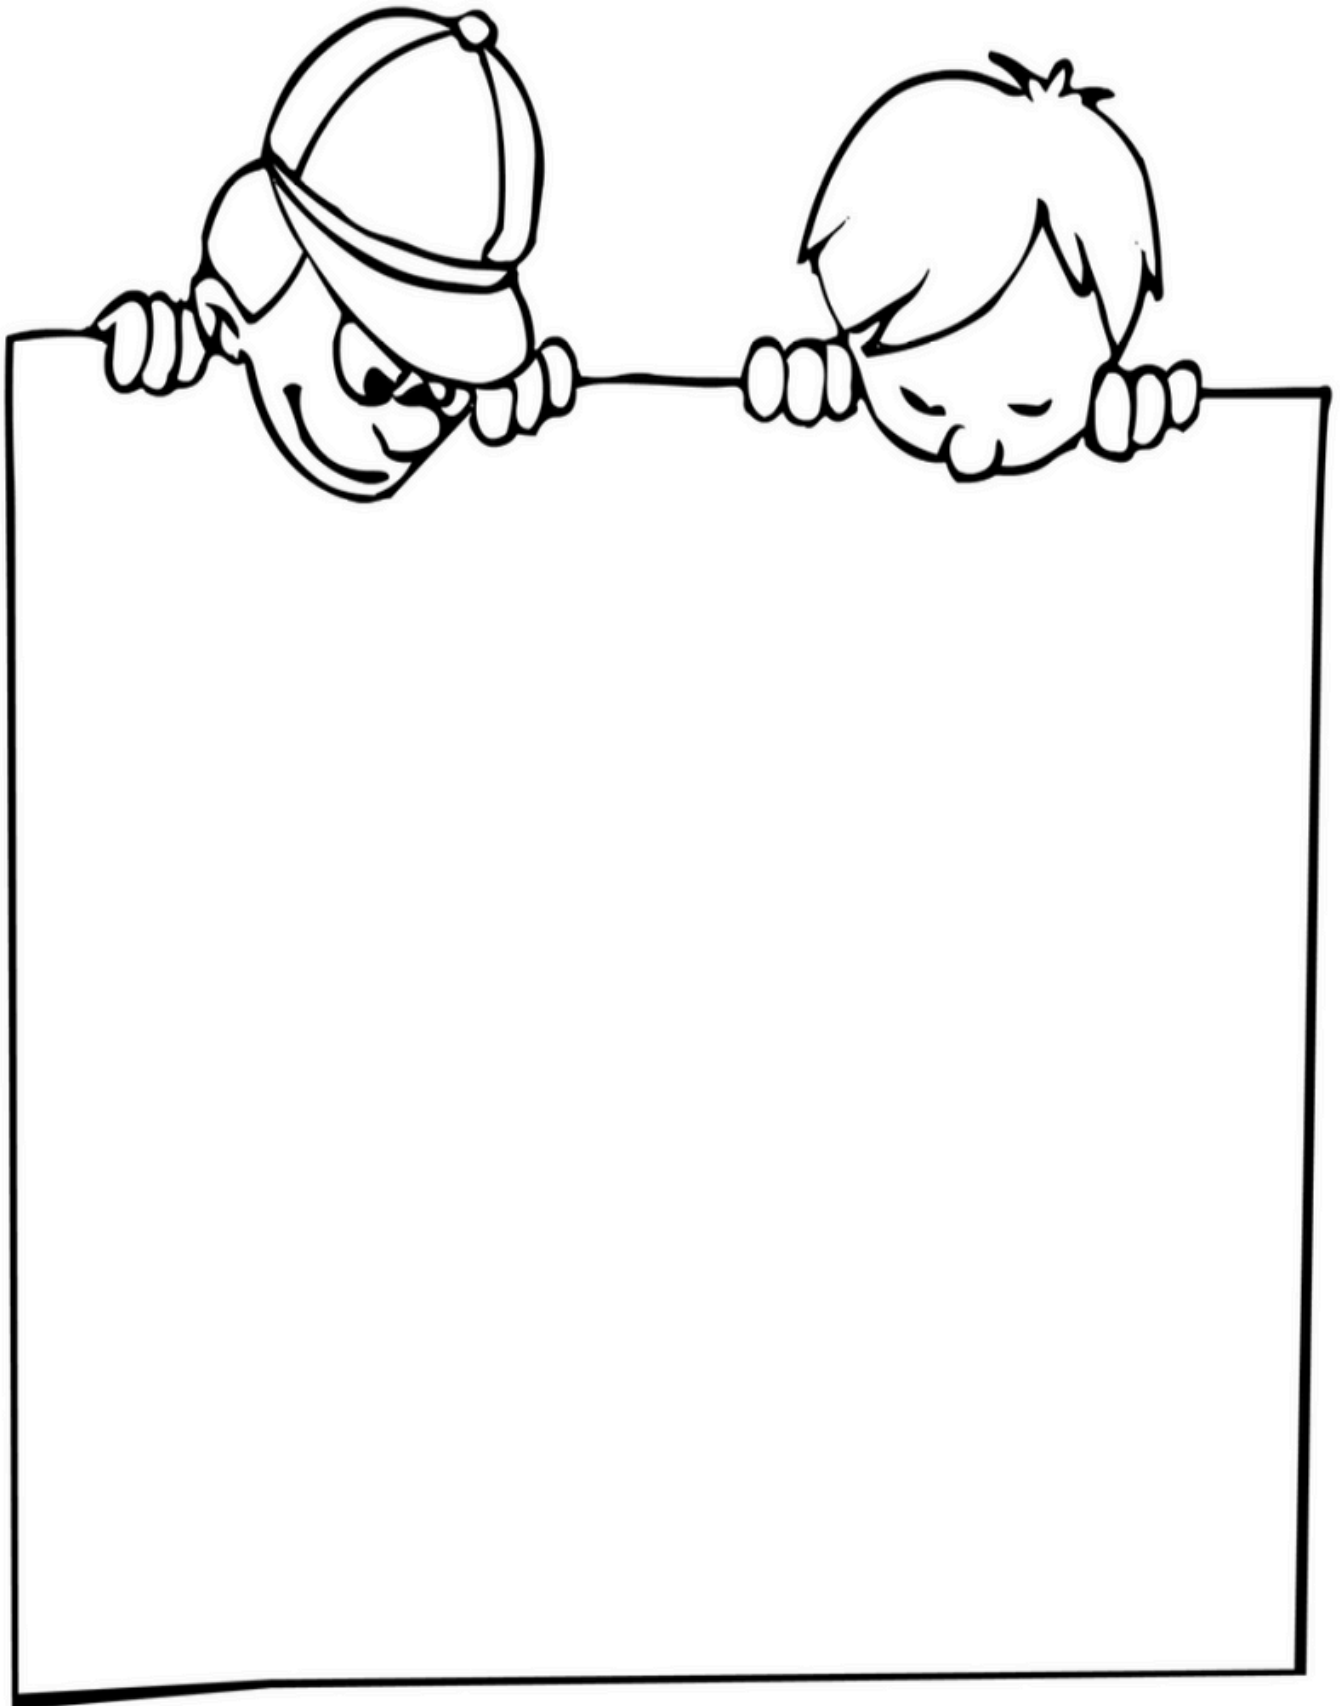

Draw some food the goat would like to eat.

DRAWING

DRAW & COLOUR

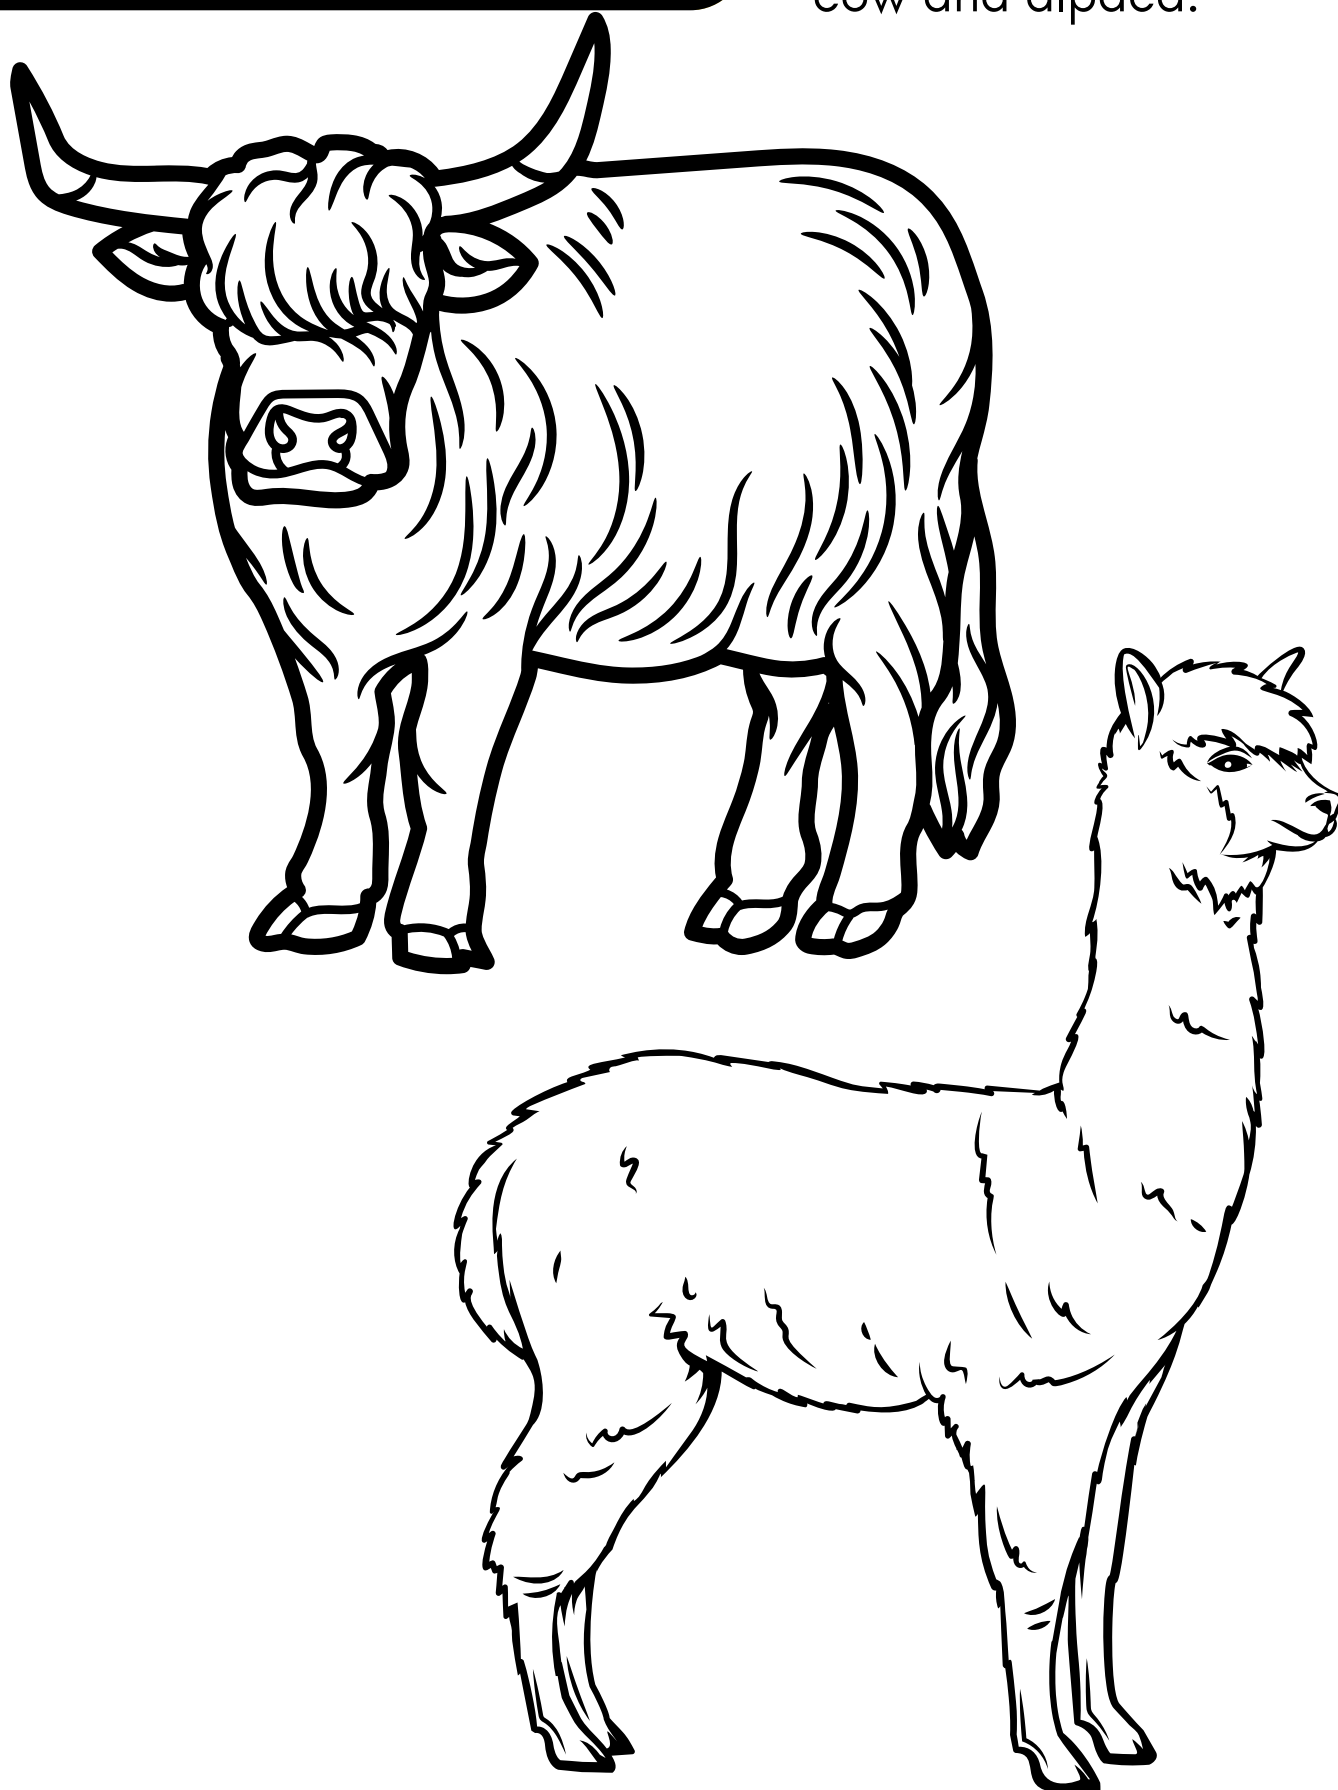

Draw and colour an animal that begins with 'c'.

COLOURING

COLOUR

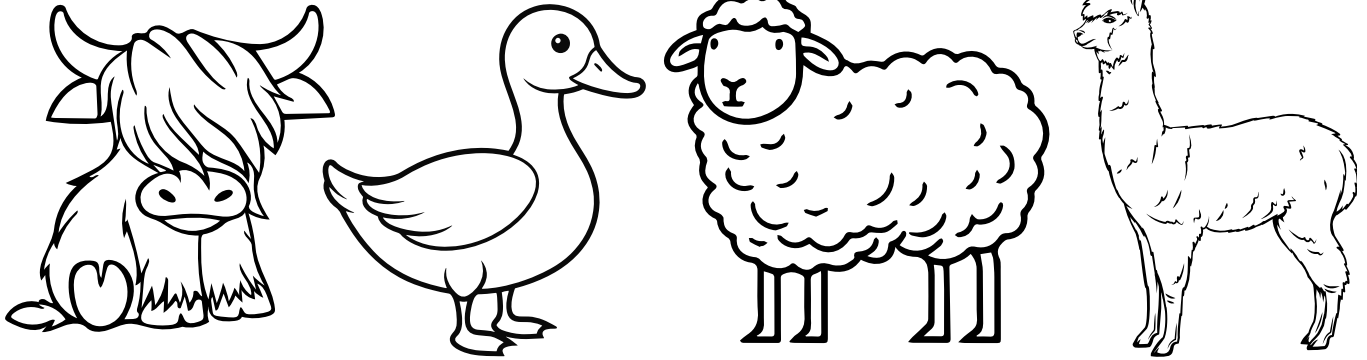

Colour the highland cow and alpaca.

MY PLEDGE

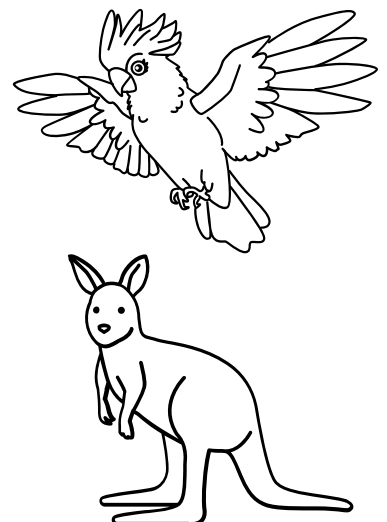

MY PROMISES

Write down how you will care and respect animals.

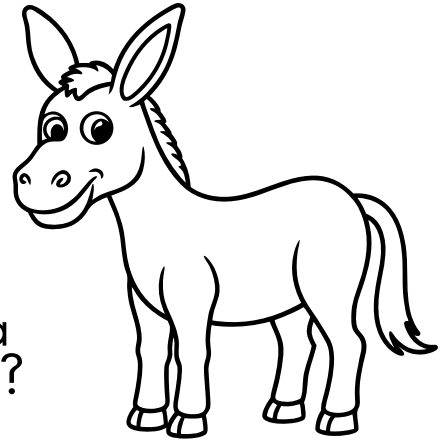

If I have a pet, I promise to take care of it by doing these things...

Things I can do to care for and protect native animals where I live...

CAN YOU HELP?

Would your family like to make a donation to Eventide Sanctuary?

All the money donated to Eventide is spent on feeding and caring for the animals. It takes a lot of food to feed all the animals every day, so your donation, however small, can make a big difference.

Ask an adult in your family if you can make a donation.

Scan the QR code below and select 'donate'.

Thank you from everyone at Eventide!
