## BMRPA 22 Bench Rest Rifle Results September 4, 2025

Greetings 22 Bench Rest Rifle shooters,

Last month at the Showdown match the scores seemed to be one click off. In September everyone was back with some impressive targets. Congrats to Doug J. who notched the club's first Perfect Black Target with a 200-20X. Perfect scores are getting normal on the Green and Black targets. Walt and Dennis fell just short on the Red target. Fun Fact: no one was promoted to Expert this match because we have a good mix of winners that seem to change each month. That makes things interesting.

Red Target Availability; still no word from National Target. Will keep everyone informed. Dave and I know you want practice targets. Speaking of targets, some of you joke about turning in a good practice target for a match. Dave and I have a way of checking that and just for fun we did an audit this match. I am pleased to report that all the targets were legit and shot during the match. Don't ask how we do it.

Thanks to everyone who participated and helped with this match. It takes effort to set up, score, and clean up. We had 17 shooters who turned in 36 targets and grossed \$260 entry fees.

See you at the range, Dennis

See you at the range	e, Dennis
