This July match proved to be hot and breezy which kept us wondering where the next shot was going to go left, right or right on the bullseye, it is North Dakota. We had a good turnout today with a lot of regular indoor shooters coming out to try out their skills dealing with the outdoor elements. They all seemed to enjoy it and hopefully will come back for more. Next match will be August 13th and hope to see you all there, bring a friend so they can get aggravated like we do when that one shot goes who knows where and why. Thanks for all the help with running this match and friendships that have been made playing this game. Till next time, Doug Kitzan, Match Director
