

Awareness - Intervention - Prevention

Family Support Services of West Central Indiana

COVID-19 SERVICE PLAN

Domestic Violence & Sexual Assault Victim Services

The Domestic Violence & Sexual Assault Victim Service team has revamped our process for serving victims and survivors while keeping the risk of spreading the virus at a minimum. We have established protocols that continue to allow for 24 hour a day, 7 days a week access to an Advocate. If you are victim of violence in your home, including domestic, sexual or child abuse please call 765-655-1295 to speak with an Advocate immediately. We will work to serve everyone at the highest level possible during this time.

You can also email: DV-SAReferrals@pcfss.net with questions.

Healthy Families Program

The Healthy Families team will be working with all who are expecting a baby or have a newborn 3 months or younger to provide the support you need during this time, where so many are isolated. To get connected with a Family Support Specialist please call

765-653-4820, extension 1 or email: HFReferral@pcfss.net

Putnam County Recovery Coalition

The Volunteers for the the Putnam County Recovery Coalition are limited due to the cancellation of classes and support groups, but we all know that addiction is a tough battle everyday, possibly made even more difficult with the stress and isolation during this outbreak. We will remain vigilant and ready to support those who are struggling. If you have needs please email pcrc@pcfss.net and a volunteer will contact you.

Additional Support

We are part of an amazing network of other service providers in our region. If you need help and you don't know where to turn, please contact us. Call 765-653-4820 or email info@pcfss.net. If we can't help you directly, we will connect you with someone who can.
