LITERACY

CULTURE

COMMUNITY

Welcome to Reddick Library !

The purpose of this Adult social story is to prepare for a visit to Reddick Library. Reading it will help visitors get comfortable with the library's building and services, so they can have a positive library experience.

You can read it online or print it out. Copies are also available at the Circulation and Children's Desks to use during your visit.

This is my library, Reddick Library.

When I visit, the doors will open automatically for me.

This is the Circulation Desk. I can say hi to the librarians there and ask them questions. I can also return my books here.

Here is where I can pick up the books I have on hold. I can ask the librarians for help.

This is the Adult Department. There are so many books to check out! I can check out movies and TV shows, too. I can even check out video games!

This is the Teen Room.
I can hang out in here if I am a teen.

This is a catalog computer.
I can use it to find the books I am looking for.

This is the Reference Desk.
The librarians here can help me if I have questions.

I can go into the Quiet Room to read or work.
I have to be quiet in this room.

I can use these computers to work or play games.
I can also use them to print.

I can also copy, fax, and scan.
I can ask the librarians to show me how.

Sometimes there is a special event in the Community Room, like bingo or book club. I can ask the librarians to show me where to go.

When I'm ready to go home, the librarian will check out my items so that I can take them home. I can also use the machines to check them out myself.

I had a nice time at the library.
I can come back another day.
