

Birding and Ecology Cruise with Captain Madie

Bring your binoculars and join Cape Water Tours for an incredible Eco Tour. Travel down the Lewes/Rehoboth Canal and enter the Cape Henlopen State Park where we will enjoy the expanse of preserved marshland. Watch as birds wade through the salt ponds, catching fish and insects. Look high in the sky as bald eagles and osprey soar. Listen to the clapping of rails, the shrills of willets, and the chatter of red-winged blackbirds... and much more.

On this cruise, our bird biologist/naturalist will guide you in finding your "inner eco-tourist." By the end of this tour, you will have learned more about our local species and why our coastal habitat is so important to protect.
