

Pratfalls, panic, and perfectly timed pandemonium make **Noises Off** the quintessential British farce, a love letter to theatre... and a strongly worded apology to stage managers everywhere.

A team of hapless actors are attempting to mount the (very fictional) farce **Nothing On**, but missed cues, romantic mishaps, and an increasingly aggressive plate of sardines seem to stand in the way. From backstage, to on stage, to back again, this comedy spirals out of control, reminding us all that sometimes everything that can go wrong in the theater will... just not always in quite this spectacular a fashion.
