

Hello -

Cincinnati Fellowship of Christian Athletes (FCA) currently serves more than **2,500 student-athletes and coaches each week across 30 local school campuses** in Greater Cincinnati. Just three years ago, we were serving approximately 500 across 15-20 schools - and the demand for consistent, values-centered leadership within school sports continues to grow.

Through FCA's on-campus huddles and coach mentoring, student-athletes are being shaped in leadership, character, and team culture at a time when those influences matter most. Because Cincinnati FCA is fully locally funded, this work is sustained in part by a select group of community partners who believe in investing in the next generation.

We are reaching out to a small number of local businesses who have demonstrated a commitment to youth development and community impact in our region. Enclosed you will find information about our **7th Annual Cincinnati FCA Golf Outing on May 18, 2026**, one of the primary ways local partners choose to support this work.

If helpful, I would welcome a brief 15-minute conversation to share more about how community partners strengthen leadership and culture among student-athletes and coaches across our schools. If your organization is already considering sponsorship participation, the enclosed sponsorship levels outline ways to engage.

I will follow up soon to schedule a brief next-step conversation - whether to share more about FCA's local impact or to finalize sponsorship details.

Thank you for your leadership in our community.
