

Base Pricing

All pricing is our starting price. All items require various degrees of prep work. The prices below are our best estimate for general type items, yours may be larger or a different configuration which will affect the price, we will always contact you before any work is done. Call us or e-mail a picture of your items for the best quote. Our rates are billed at \$.75 per square inch. Orders over 5 SQ FT can save up to 10% off. (L x W x .75)

Turn-around time on individual custom items is usually about 1 to 2 weeks after receiving your item. This allows our skilled experts to properly treat, prep, dip, and prepare your final product for a high-quality, long-lasting finish. If you are shipping your parts to our location, please pack them as tightly as possible securely wrapped and padded, to ensure no damage when shipping.

If firearms must be shipped, ship in a plain box that does not indicate there is a gun inside with a copy of your ID.

Firearms must be cleaned and completely taken down prior to shipping. Only ship the individual parts that are to be cerakoted. Any disassembly or cleaning by will be charged at a rate of \$60 per hour.

Although we stock a large array of colors, we do not stock every Cerakote color. Any special order Cerakote color will attract an additional minimum charge of \$40.00 per color added to all orders.

Shotguns

Cerakote

Complete Shotgun (pump or semi) - includes stock, receiver, barrel, forearm & magazine cap, \$ 235.00

Single-Shot Shotgun (complete) - includes stock, receiver & barrel, \$ 220.00

Double-barrel shotgun - includes stock, receiver & barrel, \$ 265.00

Parts:

Stock Only, \$ 85.00

Thumb Hole or Pistol Grip Stock Only, \$ 115.00

Collapsible Stock Only, \$ 90.00

Forearm Only, \$ 85.00

Barrel only (single), \$ 95.00

Barrels Only (over/under, side by side), \$ 190.00

Receiver Only (pump or semi other than Saiga), \$ 85.00

Bolt - (cannot be warranted for wear), \$ 25.00

Butt Plate (cannot be warranted for wear), \$ 20.00

Trigger Guard, \$ 25.00

Shotgun Saddle mount, \$ 25.00

Magazine Extensions, \$ 35.00

Magazine Tubes, \$ 35.00

Magazine Cap, \$ 15.00

Benelli Comfor-Tech Stock Chevron Removal/Re-Insertion fee: \$ 15.00

Choke Tubes, \$ 35.00

Standard Rifles

Cerakote

Complete Rifle - includes stock, barrel & receiver (does not include trigger guard, bolt or butt plate, \$ 235.00

Complete Rifle Thumb Hole Stock- includes stock, barrel & receiver (does not include trigger guard, bolt or, \$ 255.00

butt plate),

Parts:

Receiver Only, \$ 80.00

Rifle Barrel Only, \$ 95.00

Rifle Stock, \$ 130.00

Rifle Thumb Hole Stock, \$ 165.00

Ram Rod, \$ 45.00

Butt Plate (cannot be warranted for wear), \$ 20.00

Trigger Guard (cannot be warranted for wear), \$ 15.00

Bolt (cannot be warranted for wear), \$ 25.00

Bolt Action (cannot be warranted for wear), \$ 15.00

Muzzle Brake (additional charge for masking muzzle brake equipped rifle), \$ 35.00

Magazine (6 or more deduct \$5 each), \$ 25.00

Modern Sporting Rifles

Cerakote

AR-15 type complete - upper receiver, lower receiver, handrail, buffer tube, \$ 365.00

Lower Receiver Only (stripped), \$ 95.00

Upper Receiver Only (stripped. Add \$15 for ejection port cover), \$ 85.00

Hand Guard - (2 pieces) / Forearm, \$ 60.00

Quad Rail, \$ 140.00

AR Barrel, \$ 115.00

Pistol Grip (separate), \$ 35.00

CAR Stock, CTR Stock (separate), \$ 90.00

Standard Stock (A1/A2, separate), \$ 70.00

Charging Handle (cannot be warranted for wear), \$ 30.00

Free-Float Fore-end Only (non-railed type. For rails add \$10.00), \$ 150.00

Furniture Kit (trigger, pins, take down pins, forward assist, mag release, bolt catch, selector), \$ 70.00

Trigger Guard (cannot be warranted for wear), \$ 20.00

Buffer Tube, \$ 45.00

Castle Nut, \$ 15.00

Back Plate, \$ 20.00

AK type rifle (standard or folding stock, add \$25.00 for thumbhole type stock), \$ 375.00

SIG 556 complete, 390.00

HK style guns (MP5, 91, 93, etc. & clones. Add \$25.00 for collapsible or folding stock), \$ 410.00

P90/PS90, \$ 275.00

Steyr AUG / MSAR STG 556 furniture package - stock, fore grip, port cover, \$ 195.00

Steyr AUG / MSAR STG 556 entire gun, \$ 475.00

Barret and other 50 BMG rifles (starting at), \$425.00

Parts:

Gas Tube, \$ 10.00

Gas Block, \$ 15.00

AR Lower parts - complete, \$ 70.00

AR Upper receiver parts - forward assist, dust cover, \$ 35.00

Magazine - bottom plate, \$ 6.00

Magazine (6 or more deduct \$5 each), \$ 25.00

Vertical Fore grip, Magpul Angled fore grip, \$ 30.00

EO-Tech, Aimpoint, or ACOG Sight (at owner's risk - must be waterproof!), \$ 125.00

MagPul PRS or UBR Stock (separate, if it's part of full gun \$65.00), \$ 200.00

Rail marking masking, \$ 35.00

Handguns

Cerakote

Semi-Auto Complete Pistol - includes frame, slide and barrel, \$185.00

Single Shot Complete Pistol - includes frame and barrel - Some models may be slightly more, \$ 130.00

Revolver (revolver cylinder not warranted for wear), \$ 180.00

Semi Auto Frame only, \$ 95.00

Semi Auto Slide only, \$ 90.00

Revolver Frame only, \$ 100.00

Revolver Cylinder only, \$ 65.00

Back Cap, \$15.00

Pistol Grips - pair, \$ 45.00

STI Style Modular Pistol Grips, \$ 50.00

Contender Barrel, \$ 80.00

Ruger Charger stock, \$ 125.00

Magazine- Full (base pad & body, no guarantee on body), \$ 25.00

Magazine Base pad only, \$ 10.00

Parts

Coat Bolt to match – \$55.00

Coat bolt handle and Polish bolt – \$100.00

With Adjustable Tactical Stocks – Surcharge: add to above \$35.00

Bolt Action Rifle Magazines – One Color \$30.00

Bolt Action Rifle Magazines – Each Additional Color \$20.00

Extra-Large Bolt-action type Firearms

50 BMG Bolt Action Rifles – One Color \$450.00

50 BMG Rifles Additional Colors – Each color, add \$75.00

AR-30 and similar .338 Lapua and .408 CheyTac bolt action rifles – one color \$475.00

Barrett 82A1 and similar semi-auto 50BMG rifles – One Color \$600.00

Barrett 82A1 Magazines, ea. – One Color \$45.00

Barrett and 50 BMG Magazines – Additional Colors, each: \$25.00

Four and Five Color Camouflage Patterns – Surcharge for .338 Lapua Tactical and 50 BMG rifles: – \$350.00

SCOPES

Cerakote

Rifle Scope - complete (no warranty - must be waterproof with signed wavier), \$ 95.00

Red Dot Scope - complete (no warranty - must be waterproof with signed wavier), \$ 65.00

EO-Tech, Aimpoint, or ACOG Sight - complete (no warranty - must be waterproof with signed wavier), \$ 90.00

Scope Mount, \$ 25.00

Scope Ring Set - separate, \$ 25.00

Scope Marking Masking, \$ 30.00

KNIVES

Cerakote

Knife, fixed - 3 - 6 inches, \$ 45.00

Knife, folder - scales only, \$ 45.00

Knife, fixed - 6.5 - 12 inches, \$ 60.00

Knife, fixed handle only, \$ 30.00

Knife sheath (must be rigid), \$ 60.00

Fixed Knife Combo (full knife & rigid sheath), \$ 95.00

ACCESSORIES

Cerakote

Tactical Flashlight, Small - (under 5 inches long), \$ 30.00

Tactical Flashlight, Medium - (at least 5 inches long), \$ 35.00

Handheld Flashlight - (up to 10 inches long), \$ 40.00

Silencer/Suppressor - (center fire suppressors are not warranted with sustained full-auto use), \$ 75.00

Bipod / tripod, \$ 65.00

Vertical Fore grip, \$ 40.00

Grip-Pod, \$ 65.00

Vltor Casv, \$ 80.00

Rail Panels (pair of 2, \$10 each additional), \$ 30.00

Helmet - Combat, \$ 90.00

NVG Mount & Arm, \$ 55.00

Drop Leg Holster (Rigid parts), \$ 80.00

Holster (must be rigid ie:kydex type materials), \$ 55.00

Mag Pouch (must be rigid ie:kydex type materials), \$ 40.00

Holster & Mag Pouch combo, \$ 85.00

Gun Case, single long gun, \$ 250.00

Gun Case, double long gun, \$ 275.00

Gun Case, XL long gun, \$ 315.00

Gun Case, single or double handgun, \$ 90.00

ARCHERY

All bows must be completely broke down

Cerakote

Complete Compound Bow (riser, 2 limbs, limb pockets), \$ 195.00

Compound Bow (riser & 2 limbs only), \$ 180.00

Crossbow Complete (no scope), \$ 215.00

Riser Only, \$ 95.00

Limbs Only (2 each), \$ 110.00

Quiver Cup, \$ 15.00

Stabilizer (up to 12"), \$ 35.00

Stabilizer (12" - 16") Over 16" ass \$2 per inch, \$ 40.00

Cam or Wheel set, \$ 25.00

Sight (assembled), \$ 55.00

STS (E-Suppressor), \$ 15.00

Arrow Rest, \$ 35.00

Cable Slide Roller Guide, \$ 15.00

Whisker Biscuit, \$ 40.00

ANIMAL SKULLS (must be cleaned and ready)

Cerakote

Deer Skull only, no lower jaw, \$105.00

Deer Skull only, lower jaw, \$130.00

Small animals, (squirrels, rabbit, etc.), \$ 45.00

Bear Skull up to 19" (L + W) complete- upper and lower jaw, \$100.00

Bear Skull 19-1/16" - 21" (L + W) complete- upper and lower jaw, \$115.00

Bear Skull Over21" (L + W) complete- upper and lower jaw, \$135.00

Coyote, \$ 45.00

Other Small Animals, \$ 45.00

Bison, \$ 130.00

Elk - Bull (antlers must be removed), \$ 65.00

Gator, \$ 100.00

Antelope, \$ 80.00

African Antelope Large, Kudu, Eland, Zebra, Wildebeest, etc., \$ 130.00

African Antelope Medium, Blesbok, Impala, etc., \$ 105.00

African Antelope Small, Dikers, Steenbok, etc., \$ 80.00

African Leopard, Mt Lion, upper and Lower jaw, \$ 150.00

African Cape Buffalo, \$ 215.00

African Lion upper and lower jaw, \$ 160.00

Wild Boar, Warthog, etc. skull no lower skull, \$ 100.00

Wild Boar, Warthog, etc. with lower jaw, \$ 130.00

Antlers Decorated, \$ 50.00

Predator, upper and lower jaw (Fox, Coyote, Bobcat, Jackal, etc.) \$75

SPORTING GOODS

Cerakote

Game Camera - (must be disassembled), \$ 65.00

Game Calls - long fluted type - (call for quantity pricing), \$ 40.00

Game Calls - (call for quantity pricing), \$ 30.00

Lacrosse Stick (no warranty), \$ 35.00

Lacrosse Stick and Head (no warranty), \$ 80.00

Hockey Goalie Mask, \$ 100.00

Baseball Catcher helmet / faceguard / rear head piece, \$ 140.00

Football Helmet, \$ 95.00

Bicycle Helmet, \$ 55.00

Ski Helmet, \$ 80.00

Batting Helmet, \$ 80.00

Tennis Racket, \$ 80.00

Golf Club Driver Head, \$ 25.00

Disassembly / Reassembly Is always on top of the Cerakote coating prices.

It usually ranges between \$45 – \$125 depending on the Gun and difficulty.

Although some... Such as the Springfield XD – \$200 and the Springfield XDM – \$250

So, if you're worried about your firearm please Call for accurate pricing.

We have a \$50.00 Minimum.

At the present time we are running between 1-2 weeks out on single or multi color jobs already broken down.

We are also running about 4 weeks + on design jobs and some jobs that require breakdown and reassembly

Gunsmith work can range between 4 weeks depending on the project.

These time frames are AFTER we receive your project in the shop.

We do try to carry most Cerakote colors but unfortunately, we cannot carry every single one they make.

That being said, Cerakote colors that we do not normally stock will add an additional \$40 to your order.

Tight Tolerance Parts and Markings:

We do not coat sears, springs, bores/chambers or other tolerance critical or high-flex parts. In addition, we do not media blast scopes or other optics and, as a result, there will not be as good an adhesion of the Cerakote to those items.

TOLERANCE: For standard firearms applications it is often inadvisable to coat both pins and pin holes, as the resulting one (1) mil thickness of the coating when applied to rounded surfaces creates increase of two (2) mil to the part tolerance and four (4) mil (.004) when both hole and pin are coated. This is also applicable to auto-pistol slide and frame fit, such as on tight-fitting 1911's. We typically plug or mask holes and pins and only coat the pin ends. However, we can coat pins and holes and then custom fit these parts after coating for an additional charge. We recommend hand fitting and lapping for 1911 pistol slides and frames as this will yield a precision fit and can help to tighten loose fitting slide/frame combos.

MARKINGS: For receivers, frames, slides, Picatinny rails which have painted on or lightly etched markings, these markings will be lost during the surface preparation and coating unless they are machine engraved or stamped. If these markings are of great importance we can mask over them, but those areas in and immediately around the markings will not be coated and, as such, will not blend. Manufacturer's serial numbers will be masked at no additional charge where needed or coated where possible. Some manufacturer model numbers, names etc. which are laser engraved will be masked over. This is per BATFE (ATF) regulations. Please consult us for specific requirements.

Cerakote H-Series:

H-Series is the most durable of the standard Cerakote family of coatings and provides the best performance in hardness, wear and scratch resistance, adhesion and rust resistance. It can withstand heat up to 500f – 600f degrees and comes in the widest range of colors. Therefore, we use the H-Series wherever possible. However, it's a two-part heat cure finish and, therefore, cannot be applied to optics and other items or substrates which cannot, or should not be cured at the required temperatures.

Cerakote™ C-Series:

For high-temp applications up to 1700°, such as suppressors and machinegun barrels, Cerakote™ C-Series has no equal. It's available in a wide range of colors to match the overall finish requirement of the firearm or weapons system. We also use C-Series to coat scopes and other optics, as well as fiberglass and items and substrates which cannot be baked. It is not as durable as the H-Series and is less scratch and wear resistant. The primary application is optics, electronics and fiberglass stocks which cannot be heat cured.

Cerakote Micro Slick Dry Film Lubricant Coating

Is a dry film ceramic coating with special properties and attributes specially suited to tight tolerance applications and high-wear internal parts, such as bolts, bolt carriers, barrels and 1911-barrel bushings, etc.... Cerakote Micro Slick penetrates the metal substrate and therefore adds minimal (.25 to .50 mil) thickness. Micro Slick came out of NIC's industry leading Micro Dyne automotive and turbine coatings division where it has been used successfully for many years to coat automotive pistons, cylinder walls and turbine blades, etc. Cerakote Mico Slick provides outstanding anti-friction and wear-reduction properties and good rust prevention properties. In addition, when applied to certain internal firearms parts, it helps to reduce carbon fouling by resisting carbon adhesion, which promotes reduced maintenance, easier cleaning and improved operational reliability. Micro slick imparts a medium grey to dark grey/black color to most steel substrates. Its primary purpose is functionality rather than aesthetics as the parts will "burnish" over time changing the original coated appearance of the parts while maintaining the anti-friction and anti-carbon attributes of the coating.

CERAKOTE STANDARD PERFORMANCE METRICS:

RUST RESISTANCE: Cerakote™ finishes have been tested in salt spray and full emersion and have withstood beyond 3,000 hours (about 4 months) in salt spray and hundreds of hours in full emersion testing. These results outperform other finishes by over 10x. This makes Cerakote™ finishes the clear choice for marine environments and other environments subject to high humidity and saltwater environments.

WEAR RESISTANCE: Cerakote™ finishes can withstand over 5,000 (5,212) wear cycles per mil (.0001). The Tabor wear test uses an 8" abrasive wheel applied to a metal plate coated with 1 mil thickness of the Cerakote coating. In addition, Cerakote's Coefficient of Friction is 80% less than stainless steel against stainless steel. So, when one or both moving parts of a firearm are coated, you can expect a significantly longer product duty cycle or service life.

ADHESION: Cerakote finishes have an ASTM D3359 rating of 5B and can withstand a 180° mandrel bend rotation test around a 1/4" mandrel and a ball bearing impact test of 160 inch-lbs. with no cracking or loss of adhesion. This is significant performance given Cerakote's 9H pencil hardness, which is the highest hardness rating in the scale.

HARDNESS AND SCRATCH RESISTANCE: ASTM D3363 is a 9H pencil hardness and 6H scratch resistance.

FILM THICKNESS: 1.0 mil (Cerakote DFAC "Dry Film Anti-Carbon" is .25 to .50 mil)
