House Wrap

DRYline W - Standard

Commercial Grade Building Wrap

![DRYline BUILDING WRAP SYSTEMS logo]

DRYline W commercial-grade building wrap is a strong, durable woven polyolefin fabric with a micro-perforated coating that controls the transfer of water-vapor and reduces air infiltration. Building wrap is a critical component in protecting the building envelope by controlling air movement and the transfer of moisture, creating a healthier and more energy-efficient structure.

Features:

- **Strong & Durable:** DRYline W fabric is cross-woven to resist tearing around fasteners and to endure the rigors of building construction while remaining lightweight and easy to handle.
- **Protects against Air & Moisture:** DRYline W building wrap has a micro-perforated coating which is water-resistant and controls air and moisture transfer allowing the building to breathe. Provides reliable protection in finished wall assemblies for a healthier and more energy-efficient building envelope.
- **Stable:** DRYline W building wrap is treated to resist excessive degradation from exposure to ultra-violet light and may be left exposed for up to 300 days.
- **Simple Application:** Lightweight yet durable material is translucent making locating studs, openings and corners quick and easy.
- **Meets Building Codes:** DRYline W meets or exceeds applicable building codes for weather-resistant barriers and is a critical component for an energy-efficient building.
- **10 Year Limited Warranty**

TYPICAL PHYSICAL PROPERTIES

PROPERTY	RESULTS	METHOD

Tyvek House Wrap
Optional Upgrade

How It Works:

DuPont™ Tyvek® HomeWrap® helps protect a home against damaging wind and rain that can penetrate through the exterior cladding.

The unique nonwoven structure of DuPont™ Tyvek® HomeWrap® blocks excess water from entering into walls.

The breathable structure of this house wrap allows moisture vapor to pass through to help promote drying in wall systems which can aid in preventing the growth of mold and mildew.

The unique non-woven fiber structure of DuPont™ Tyvek® HomeWrap® stops air movement through the walls helping to provide a more energy efficient home.

Specifications

Listed Class A Fire – UL 790
Approximately 64 Pieces/Sq.
Approximately 3 Bundles/Sq.
5 5/8" exposure

APEX COLOR™ TECHNOLOGY
Proprietary granule blends and a technologically-advanced color drop process creates superior color featuring more depth and better shadowtones for a more natural-looking roof.

ULTRAMAX WEATHERING™ LAYER
Proprietary engineering to increase top coating where it's needed most, for a weathering layer of asphalt designed for protection.

RAPID FIRE ZONE™
A clearly defined expanded nailing zone for fast and easy installation.

POWER CORE™
Fiberglass mat core engineered to help resist tearing and cracking.

PROTECTIVE GRANULES
An embedded layer of ceramic-fired granules offering both beauty and protection.

ANCHORLOCK™ LAYER
This unique poly-fabric reinforces the shingle for an added layer of protection and provides an anchor for the nails to embed in, locking them tightly to the deck.

ADVANCED FUSION™ SEALANTS
A family of aggressive sealants, specifically designed to be sticky, even in cooler weather.

TITAN XT™ shingles have a fiberglass mat construction with a random-cut sawtooth design. Two layers of fiberglass mat are coated with asphalt, surfaced with mineral granules and then laminated together. The shingles feature a self-sealing strip of asphalt and a reinforcing strip of polyester fabric on the back of the shingle, attached in the common bond area to provide added anchoring for the expanded nail zone.

- Rapid Fire Zone™ — a clearly defined 1-1/2" expanded nailing zone
- A reinforced nail line — 2" poly strip reinforcing the nailing zone and the common bond
- Manufactured with an enhanced, polymer-modified shingle sealant
- 15-year Limited Warranty for winds up to 160 mph when applied in accordance with Titan XT's High Wind Application Instructions
- Limited Lifetime Warranty*
- 10-year Full Start ® non-prorated warranty period
- 10-year Algae Cleaning Limited Warranty
- Wood-shake look and beauty
- Shadowtone feature adds dimension, depth of appearance and curb appeal

LANDMARK® SERIES SHINGLES

Featuring **StreakFighter®** & **NailTrak®** Technology

CertainTeed SAINT-GOBAIN

NAILTrak® Shingle Technology

The bond that holds it together.

For more than a decade, NailTrak has improved shingle installation by providing a nailing area three times wider than that of a typical laminate shingle. This increases efficiency and accuracy in installation, providing homeowners greater peace of mind. Landmark® shingles also feature our specially-formulated Quadra-Bond® adhesive, providing industry-leading resistance to delamination. Together, our NailTrak and Quadra-Bond technologies deliver the strength and durability that allow your roof to stand the test of time.

1-1/2" extra-wide nailing area improves efficiency and accuracy

An industry-leading four strips of our Quadra-Bond adhesive for durability.
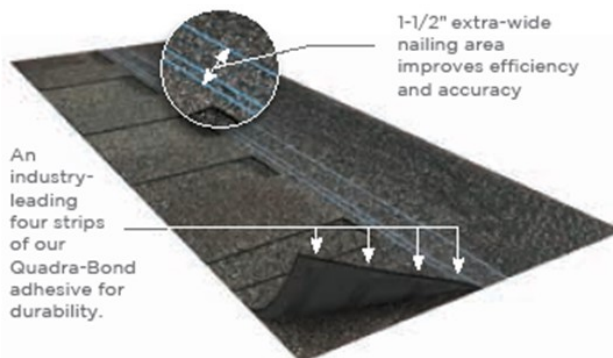

STREAKFighter® Algae-Resistant Shingle Technology

The ultimate in stain protection.

Those streaks you see on other roofs in your neighborhood? That's algae, and it's a common eyesore on roofing throughout North America. CertainTeed's StreakFighter technology uses the power of science to repel algae before it can take hold and spread. StreakFighter's granular blend includes naturally algae-resistant copper, helping your roof maintain its curb appeal and look beautiful for years to come.

Andersen 400 Series Windows

Tilt-Wash Double Hung Windows
Optional Upgrade

Tilt-Wash Double-Hung Windows

Andersen ® 400 Series tilt-wash double-hung windows are engineered to provide outstanding performance and style. Combined with the tilt-to-clean sash, it's easy to see why it's Andersen's best selling double-hung. On the inside you have the choice of natural pine or low-maintenance white, dark bronze or black finish.
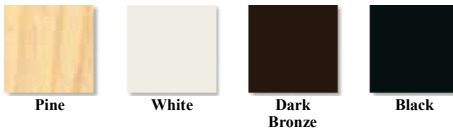

Durable

- Virtually maintenance-free
- Perma-Shield® exteriors never need painting, won't peel, blister, flake or corrode
- Frame exterior is protected by a tough vinyl cover that resists dents, repels water and provides long lasting protection.
- Available w/Stormwatch® protection for coastal areas

Energy Efficient

- Weather-resistant construction for greater comfort and energy efficiency
- Weatherstripping is designed to seal out drafts, wind and water
- Variety of Low-E® glass options are available to help control heating and cooling costs in any climate
- Many 400 Series tilt-wash double-hung windows have options that make them ENERGY STAR® v.6.0 certified throughout the U.S.

Wolf Artisan Maple Cabinets & Vanities

Optional Upgrade

Please Note: Specific cost requests and additional lead times will apply with the Artisan Series.

Wolf Artisan Maple

CRAFTED BY ARTISANS

With a name like Artisan, you know to expect singular craftsmanship, right down to the ability to customize your space to within just 1/16 of an inch for a precision fit and finish. With the Wolf brand, you know that quality always comes standard for looks with accolades and durability that lasts a lifetime. That's been true for 180 years, and will continue long into the future. Craftsmanship. Customization. Quality. They all come together beautifully with the Wolf Artisan series

SOLID-WOOD DOVETAIL DRAWERS

Durability is in the details. You'll find this level of craftsmanship on all four sides of every Wolf Artisan drawer.

SOFT-CLOSE DRAWERS AND DOORS

Even the most frenetic of spaces is a little quieter with soft-close hinges and slides.

I-BEAM CONSTRUCTION

Built to remain strong and square from day of delivery to after years of daily use.

3/4" SOLID-WOOD FRAMES WITH EASED EDGES

Fewer snags and scratches and a finish that holds its color and luster longer.

DEEP DRAWER BOXES WITH FULL-EXTENSION

Store more of everything and find it easily with drawers that extend beyond the cabinet face. Featuring 90-lb. drawer slides.

CUSTOMIZED CONSTRUCTION

Choose the construction level that fits your space or setting the best: engineered wood or all-plywood.

CUSTOM BUILDING
SYSTEMS LLC

Revised January 18, 2018

Warranty and Guidelines

Warranty Information:

Custom Building Systems, LLC warrants its product for one (1) year (from the date of delivery) from concealed structural damages or defects. Custom Building Systems, LLC also enrolls every house in a ten (10) year limited structural warranty program with RWC Residential Warranty Corporation. There will be an information packet forwarded to the builder. The builder must forward the package to the Homeowner. The information contained in this packet instructs the homeowner on what is an allowable claim. The information packet will also contain a list of industry-accepted tolerances on items throughout the home and how to submit a claim to the Residential Warranty Corporation.

All appliances and fixtures supplied by Custom Building Systems, LLC. are covered by their own individual manufacturer's warranties.

Reminder to Builders:

Custom Building Systems, LLC manufactures its homes to meet rigid specifications, including the IBC, IRC, and the applicable standard state building codes. Although we design our products to meet most local building codes, due to circumstances beyond our control we cannot guarantee that we meet all local code requirements. For specifics, the builder should refer to his local building inspector.

**It is the builder's responsibility to inform Custom Building Systems, LLC., in writing, of any special requirements or codes required in the builders local area. **
