

Following our mission to ensure **optimum value** at the **lowest possible costs**, TrueScripts is excited to offer a better way for members to access discount card savings on generic prescriptions.

At TrueScripts, we want to make it easier for members to get the greatest savings possible while achieving appropriate credit toward their deductible and out-of-pocket maximums. This is especially important for members with a high deductible plan.

With **PriceProtector+**, we will *automatically* apply GoodRx or RxPartner discount card pricing if it is lower than the member's cost through the benefit plan. No separate card to carry, no forms to send in, no headaches.

That's **Amazing Care!**
