

Unlocking Simplicity: Why Our 9-Page Contract Is the Key to Optimizing Your Prescription Benefits

In today's complex healthcare landscape, transparency and simplicity should be non-negotiable—especially when it comes to PBM contracts. Yet, many PBMs still operate with lengthy and convoluted agreements designed to confuse rather than clarify. At TrueScripts, we've turned that approach on its head, offering a clear, concise, and transparent 9-page contract that cuts through the clutter.

Why does this matter to you as an HR leader or plan sponsor? Because understanding your PBM contract is the first step toward ensuring your plan is optimized for both cost savings and employee well-being. Here's why our short, straightforward contract can make all the difference:

Clarity and Transparency

Our contract is designed to be easy to read and understand. We believe in full financial transparency, so you know exactly where your money is going. You'll pay actual drug costs—no spread pricing or hidden fees. When we receive rebates, they are passed on to you in full. We make money solely from disclosed administrative fees. This ensures that you're always in control and fully informed.

Protection from Hidden Pitfalls

We've all seen it: PBMs using complexity as a tactic to mask fees or conflicts of interest. At TrueScripts, we operate under a binding "Affirmative Covenants and Transparency Commitments" clause. This clause obligates us to work in a conflict-free, mission-aligned manner with clearly defined commitments, giving you peace of mind that we're always acting in your best interest.

A Contract You Can Actually Read

Nine pages. That's all it takes to secure a PBM partnership built on honesty and integrity. Our contract doesn't require a law degree to decipher. It's straightforward because we have nothing to hide. No tricks, no fine print—just a simple agreement that protects you and your members.

Partnering for Success

With TrueScripts, you're not just signing a contract—you're entering into a partnership where your goals are our goals. We're committed to helping you optimize your prescription benefits while maintaining transparency at every step. And if you ever need help navigating your contract or have questions, we're always here to assist.

It's time to say goodbye to complex, confusing PBM contracts. At TrueScripts, we believe that transparency is not just a benefit—it's a promise. With our 9-page contract, you can feel confident that your plan is protected, optimized, and aligned with your goals.

Ready to take the next step?

Let's talk about how our transparent, no-nonsense approach can benefit you and your employees.
