

2026 Access Formulary

Effective 01/01/2026

The Formulary List is a guide providing tier designation for common medications within select therapeutic categories. The Formulary List includes drugs that may or may not be covered and/or require prior authorization for coverage by your prescription drug benefit. For specific benefit coverage, please review your benefit plan document(s), or call the TrueScripts Member Care Team at 844-257-1955. Generic medications are available within many of the therapeutic categories listed, in addition to categories not listed, and should be considered as the first line of prescribing.

For benefit coverage or restrictions please check your benefit plan document(s). This listing is revised periodically as new drugs and new prescribing information becomes available. It is recommended that you bring this list of medications when you or a covered family member sees a physician or other healthcare provider.

Tier Definitions	Description	Helpful tips
Tier 1	This tier includes many commonly prescribed generic drugs and may include other lower cost drugs.	Use Tier 1 drugs for the lowest out-of-pocket amount.
Tier 2	This tier include preferred brand name drugs as well as some generic drugs.	Tier 2 drugs will generally have a lower out-of-pocket than Tier 3 drugs.
Tier 3	This tier includes non-preferred brand name drugs as well as some generic drugs.	Tier 3 drugs generally have the highest out-of-pocket cost. Ask your doctor if switching to an alternative drug from Tier 1 or Tier 2 may be right for you.

Notes: ST = Step Therapy, PA = Requires Prior Authorization

Specialty Drug - all Specialty Drugs require Prior Authorization (PA). If approved, Specialty Drugs will process at Specialty Tiers (not Tier 1, 2, or 3) as defined under Schedule of Benefits per Person in your benefit plan documents(s).
