

The MEMIC Difference adds value for your customers

Loss control, training, and telehealth services at no extra charge

24/7 Online Unlimited Access Training

Policyholders have unlimited, free access to hundreds of industry-best safety training videos, compliance tools, workshops, and webinars, plus Safety.BLR.com® and HR.BLR.com®.

Learning Management System

Safety Academy Online is a powerful Learning Management System (LMS) that allows you to select from an extensive catalog of content and deliver computer-based safety training and curriculum customized to the specific needs of your workplace. Safety Academy Online can be a game changer for companies struggling to deliver required training to their staff and is available exclusively at no extra charge to MEMIC policyholders.

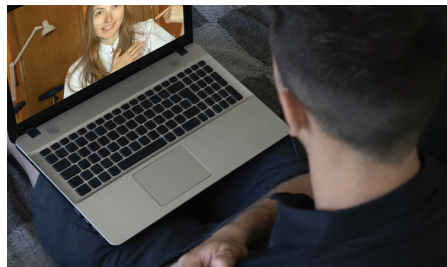

Key Features

- ▶ Choose from a catalog of over 1,000 courses.
- ▶ Course assignments are tailored to the specific needs of your company and industry.
- ▶ Employers have administrative functionality to add or delete users, assign or unassign courses, and run customized reports.
- ▶ Personalized onboarding and system setup

E-ERGO™, our free and personalized ergonomic assessment tool

Free to our policyholders, MEMIC's E-ERGO™ conveniently provides tools and solutions to overcome everyday ergonomic challenges in office, manufacturing, healthcare, and manual material handling work environments. With just five quick photos emailed to one of MEMIC's ergonomists, we begin to identify your risk factors and provide solutions within 48 hours.

Free 24/7 Injury Triage and Telehealth

MEMIC policyholders have free and unlimited access to our **24/7 InjuryTriage and Telehealth** specialists. We urge policyholders to speak directly with a registered nurse within minutes of an incident, to reduce overall medical costs and help ensure faster claim processing.

Supercharge your safety program with TuMeke Risk Assessment analysis

MEMIC now uses TuMeke camera-based assessments to measure and automatically track employee safety without stopping production. No need for wearables, goniometers, or other equipment. Policyholders use the tool to identify, track, and solve a variety of safety risk factors.

Loss Control: We don't believe in charging extra for safety

MEMIC is dedicated to helping our policyholders avoid unnecessary insurance costs while keeping employees safe on the job. A large part of that is reducing workplace injuries, which is why we partner with your customers to help their organizations become better informed and more committed to safety practices.

Every MEMIC Middle Market and Loss Sensitive customer is assigned a loss control consultant at no additional cost to the policyholder.

Contact your underwriter to see how **The MEMIC Difference** can save money for your customers.
