

EXTERNAL

Capital Coated Steel Refurbishment, Newport

Steel firm Capital Coated Steel invested £3.5m to acquire and refurbish their new headquarters and production base in Newport. The 130,000 sq ft former steel works will consolidate three existing businesses under one roof and significantly increase capacity. With a tight project deadline, Capital approached Hemsec to supply them with our External panels, recognising their excellent thermal performance values and superior smooth surface finish.

- 725m² of 80mm Hemsec External with a 0.24 U-value.
- Computer generated random effect colour in White, Purple and Silver Prisma.
- Purple steel is a match to the Capital Coated Steel livery.
- 400m long front elevation.
- Tata Steel Colorcoat ® Showcase Building.
