Update on Endicott Parishes Configuration

Bishop Lucia will be officially announcing the new parish configuration for the four Catholic churches in Endicott with the intention of them being under the umbrella of one new name while maintaining their individual parish names. For canonical purposes, St. Joseph's was named as the principal church with the main business office at St. Anthony's. At this time, all four parishes remain open with no changes to the current mass schedule and no changes to the other liturgical celebrations currently taking place.

We wanted to share this information with you so that when Bishop Lucia's announcement is publicized we didn't want this to lead to any confusion.
