

From Autophagy Science to a Data-Driven Healthy Longevity Platform

We make autophagy measurable from cells to humans.

WHAT IS AUTOPHAGY?

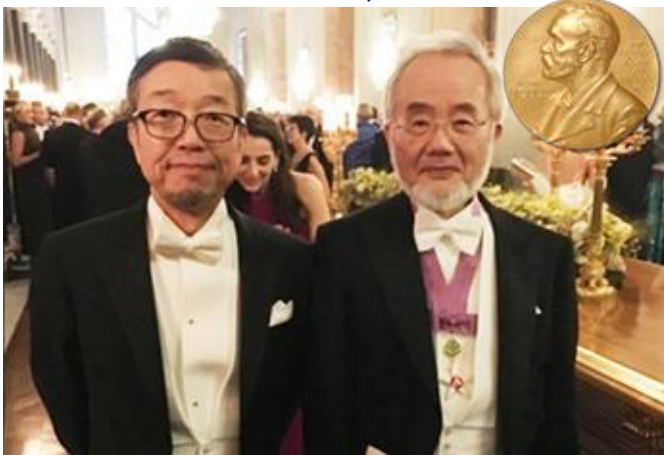

The body's natural recycling system

It breaks down and renews cellular components, helping cells maintain homeostasis.

NOBEL PRIZE

Prof. Tamotsu Yoshimori, APGO Founder
with Prof. Yoshinori Ohsumi, 2016 Nobel Laureate

2016 Nobel Prize in Physiology or Medicine

XPRIZE HEALTHSPAN

TOP 40 SEMIFINALIST

Human clinical deployment

JAPAN AUTOPHAGY CONSORTIUM

JAPC is an industry–academia platform connecting world-leading autophagy research with industry to advance scientific evaluation, certification, and trusted commercialization.
