

COLORADO STARTUP WEEK · 2026

Generative AI gives answers. Creative AI expands futures.

FIRA — the first Creative Intelligence, born in Japan.

Kazuo Yano, PhD CEO, Happiness Planet · Fellow, Hitachi, Ltd. · IEEE Life Fellow

Generative AI is trained on the past.

So it is very good at the plausible, safe answer.
That is useful for productivity.

**Leadership is not about
choosing the average answer.**

A CEO asks:

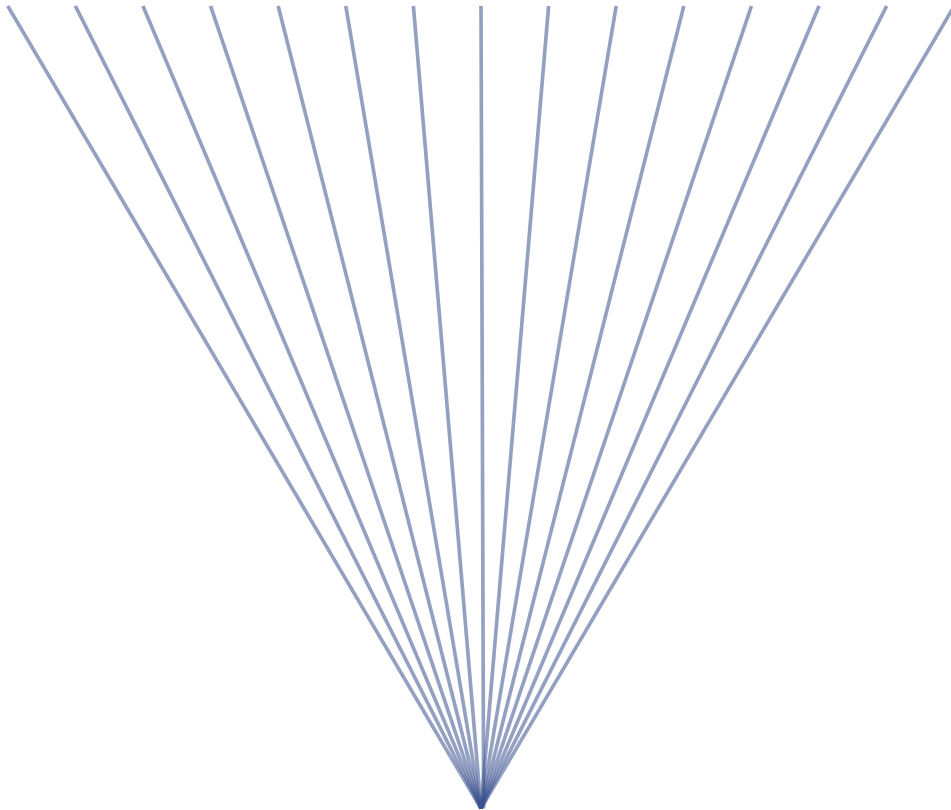

“Is there a plan C we haven’t seen yet?”

eg. M&A, succession, market entry, etc.

Generative AI

Information & knowledge

one average answer

Creative Intelligence

Information & knowledge

Create
▪ **New Meanings &** ▪
▪ **Possibilities** ▪

Multiple Options

AI supports critical issues.

**“I am the CEO of Maybell Quantum, a Colorado-based startup.
Japan has named quantum a national strategic priority.
Don’t give me a market entry checklist. Tell me what I should bet on.”**

No documents. No data room. A Colorado company I have never met.

DEMO

Not a concept. Already in production.

70+

companies in Japan:
banks, manufacturers, Hitachi

No. 1 of 14

frontier models,
on executive decision quality

In the last two months: about twenty meetings. Nearly all converted. **Most said**
“Better thinking in ten minutes than months of work by our executives and consultants.”

Quantum meets AI.

*The **ALGEBRAIC** structure of quantum theory, reframed for CREATIVITY*

$$C = \|[A, B]\psi\|.$$

No physical quantum effects. Quantum *mathematics*

600+ non-commutative operators on top of state-of-the-art LLMs.

Algebraic Quantum Intelligence · arXiv 2602.14130

Generative AI gives answers.
Creative AI expands futures.
And it will make you braver.

We are opening this category in the US, and we are looking for design partners —
Three companies willing to put a real decision in front of it.

Kazuo Yano · Happiness Planet, Ltd. (A Hitachi Group Company) · arXiv 2602.14130
