Funeral Home Policy for handling of an un-embalmed individual

Bodies that are not embalmed will, in all cases, be given sanitary care. Sanitary care is the process of cleansing a body including bathing, shampooing the hair, and posing of facial features by means of external pressure. Sanitary care also includes the suturing of incisions and external treatment of lesions.

An UN-EMBALMED body may be placed in a room for private viewing (immediate family only) for a period of time of short duration if in the opinion of the funeral director the body is not in a condition that might be offensive or present a health hazard to staff members or the family. ***Lakeside Funeral Home reserves the right to restrict private viewing of an un-embalmed body.***
