Meet our aerospace innovators to unlock opportunities

Explore Northern Ireland's world-class products, services and supply chains at the Paris Air Show (16 to 22 June 2025).

When you speak to our aerospace experts, you'll see why so many global names already trust Northern Ireland.

Airbus, Boeing, Embraer and many more companies consider us a valuable partner.

So what makes Northern Ireland special?

Our aerospace sector is built on outstanding engineering heritage, skills and research capabilities.

Northern Ireland offers a reliable, successful and competitive supply chain and is also the leading region in the UK for Supply Chain Excellence with over two thirds of the prestigious SC21 Gold awards.

It's also the only region in the world where goods move freely to both GB and EU markets, so sourcing goods from us is easy.

Visit us at the Paris Air Show, Hall 2B, Stand G171

AERONAUTICS™

YOUR EDGE IN THE FIELD

PARIS AIR SHOW 2025

COME VISIT US AT: HALL 3 STAND B42

The Combat-Proven ORBITER 5 UAS enables a new paradigm in mission performance by providing MALE mission capabilities in a tactical UAS missions.

ORBITER 5 revolutionized how strategic ISTAR missions are implented, incorporating high performance payloads of various types simultaneously, with long endurance, and short mission preparation time.

The Combat-Proven ORBITER 4 family of systems is the ultimate solution for the modern battlefield's diverse tactical mission requirements. Incorporating maximum operational flexibility with both launcher and VTOL configurations which can be changed rapidly in the field. The ORBITER 4 is a group 3 UAS which can carry multiple payloads simultaneously, is easy to operate, and simple to assemble in the field.

Thank you

From the runway to the Red Planet,
you've helped shape who Castrol are today.

We're proud to collaborate with visionaries on Earth and in space. Our advanced lubricants and expertise deliver reliable performance in aerospace manufacturing. Together, we push the boundaries of what's possible.

Find us in Hall 5, Stand D-209

Proven in space.
Trusted on Earth.

Find out more.

OUR STAR PRODUCT

Forged parts, rolled rings, and metal powders.

FOMAS Group manufactures forged parts and rolled rings in titanium, aluminum, and conventional alloys. We provide vertical solutions, from forging and rolling to high-precision mechanical processing. Using FEM-based technology and our expertise in profile lamination, we deliver near-net-shape solutions. FOMAS Group also produces nickel-, iron-, and cobalt-based metal powders for additive and HIP manufacturing applications.
