FC Dutchmen Surf N1 Teams Elevated to Elite Academy League (EAL)

Schenectady, NY — FC Dutchmen Surf is proud to announce that its teams will continue competing in the Elite Academy League, providing players with a premier platform for development, competition, and exposure. As a result of the club's continued success, growth, and commitment to player development, we are excited to provide the teams originally slated to compete in N1 with the opportunity to compete in the Elite Academy League.

The Elite Academy League has consistently delivered a high-level environment that challenges players to reach their full potential while competing against some of the top clubs and academies in the region. FC Dutchmen Surf remains committed to offering its athletes the best opportunities for growth both on and off the field.

"We are excited to continue our participation in the Elite Academy League," said Michael Kinnally. "The league aligns with our mission of developing players in a competitive environment while preparing them for the next level of their soccer journey. Our families, coaches, and players have benefited greatly from the opportunities and experiences the league provides."

By remaining in the Elite Academy League, FC Dutchmen Surf players will continue to benefit from meaningful competition, enhanced player development pathways, and opportunities to showcase their talents against top-level opponents.

FC Dutchmen looks forward to building on its success within the league and continuing to provide a positive and challenging environment for all players.
