

BioLoxx lets you quickly and easily clean up the most common convenience store spills related to slips & falls.

OIL & GAS

**SPILLED
FOOD & DRINK**

**BATHROOM
HAZARDS**

**BIOLOXX ABSORBS
OIL, GAS & MORE**

In three easy steps you can be back to managing your store and not worrying about the lingering results of a spill — because BioLoxx absorbs it all up *fast*.

1. Surround the perimeter of the spill by sprinkling BioLoxx around the spill to keep it from spreading.

2. Cover the entire spill with BioLoxx to allow the spilled contents start to soak into BioLoxx.

3. With a coarse broom, mix everything together to be sure that all the spill has been contained, absorbed and soaked in; grab a shovel or dustpan and discard.
