

July 2025 Newsletter

We hope you had a wonderful time celebrating the Fourth of July! Did you know that America's Founders all recognized the great value and significance of the Bible? George Washington is one example and referred to the Bible on many different occasions. However, there was one verse that stood out more than any others for him.

**Each of them will sit under his vine and under his fig tree, with no one to make *them* afraid,
For the mouth of the LORD of hosts has spoken.**

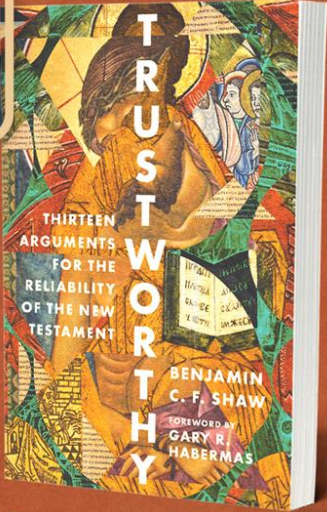

Micah 4:4 was referenced dozens of times by Washington, especially in the last half of his life. This verse depicts God's people being *free from wants or needs* since each person will have their own vine and fig tree. They will have their needs supplied, but are responsible for tending to their land and not consuming more than they produce. It also depicts *freedom from fear*. This fear involved not only fear from foreign enemies but also fear of lawlessness. For the Founders, the Bible was important as it provided key pillars for instruction and morality that would allow a self-regulating nation to flourish. How well are we using the Bible today to help the minds and morals of those around us?

Testimonial

“I actually loved that it was a webinar format because of the discussion aspect. Being able to interact with the author/teacher is unique and valuable. Many people will not go to seminary or Bible college so this is a great way to get a similar experience in terms of interaction. I have recommended it to others. This would also work for church small groups too.” -DB

Summer Activity!

Dr. Shaw was on two podcasts. The first was called Truthful Hope and discussed what role our biases play in knowing the past as well as whether historians can say a miracle occurred (they can!). The episode can be viewed here. [Click here to watch!](#)

The second was a **live 2-hour podcast!** This one was with *Tattooed Apologist* and they covered a wide variety of issues and topics. [Click here to watch!](#)

We are thankful for a new addition at CORE Apologetics. Carter Watson has been helping us for the past few months, developing social media content. He is now the official Lead Content Strategist for us. In addition to that, we are also considering making our YouTube page more active.

Dr. Davis and Shaw continued developing the Ask Me curriculum. They are hoping to record some videos for it next month! We met with a few other ministries throughout the month and were able to visit Washington, DC! While in DC, we were able to find out about some other ministries and organizations that we think CORE Apologetics could help. This included various groups seeking to help bring Bible teaching to public school students, Christians engaged in politics but working to stay strong in their commitment to Christ, and more! We were also able to get an incredible tour of the Capital during our stay!
