

**A bad chair can take 5 to 7 years off your life, and most chairs are bad for you.
You need a chair, a better chair or to repair a chair? Call us.**

Imagine you feel and look: happier, healthier and more productive.

People say: You look better, have more energy, act more confident. What did you change?

The Unexpected: Your chair & your breathing Not any chair, an anatomically correct chair, that enhances your breathing and helps you improve your comfort, health and performance.

- With deeper, stress relieving breathing you lower cortisol and enhance your immunity.
- Lower heart rate 5 to 8 beats a minute
- More blood to your brain
- Even increased testosterone , which increases overall health, and vitality in men & women)
- Prevent metabolic shutdown syndrome / weight gain and high blood sugar
- PLUS the benefits you expect: reduce or eliminate back and neck pain, sciatica, etc.

You deserve, and will love the right chair for you. Benefit from our 30+ years of experience .

We started making chairs for people with severe injuries and their revolutionary doctors.

No existing chairs would do so we had to invent a totally new kind of chair., and chairs specifically designed for men and for women and from XXS to big & tall to XXL sizes.

1 of 1000's of Testimonials

Just days after I got my Soma chair
I noticed my 20-year back pain was gone!
I was able to work longer hours & maintain better focus
on running my business rather than on my back pain!
Ron Michelson, Business Owner
