and many, many more!

I got the chair the other day, and it's amazing! I never knew how uncomfortable I was before I got my new SomaChair. Thanks!

Mark B. , CPA, MS Taxation, San Mateo, CA

Just days after I got my Soma chair I noticed my 20 year back pain was gone! I was able to work longer hours and to maintain better focus on running my business rather than on my back pain!

Ron Michelson, Business Owner

I tried a lot of high end office chairs and settled on a Soma Comfort tall back chair. I am tall and have RSI and both of those affected my choice so it might not be the best for you, but it's definitely worth trying out.

Soma's ThorSac™ backrests provide outstanding lumbar support for even the hard to fit body type.

Eileen Vollowitz, PT, Founder Back Designs and nationally recognized ergonomist

Soma chairs are so comfortable. They make all the difference. I have a repetitive strain injury and the SomaComfort™ chair has really helped me at work. It supports you and they can tailor make it to fit you just right. I will be buying another. I love 'em!

Shelley Coleman

I love the chair, and my massage therapist hates it because he never sees me anymore. Yay! No more botox injections for the neck and shoulders!

Diana Nichols, Court Reporter

Some days I can literally sit for 12 to 15 hours in a single day. My Soma chair is the first chair I have ever had in my 30 year career that I can sit in all day and be comfortable and productive without pain.

Holly Woods PhD HollyWoodsCoaching.com

My butt totally thanks you! I love my chair! It is beyond comfortable. Like sitting on a cloud. And you can quote me. I wrote my best-seller sitting on this chair. and it is in my favorite red color. It is wonderful!

I have a customized Soma Comfort chair. It's modular, so you can pick and choose the parts you want and it's much more comfortable than any other chair I've used, including the Herman Miller chairs.
